

Hats made to absorb your sweat: A new concept of hats!

SEROW RIDGE

Breathability × Sweat absorbency

Using the breathability and comfort of our special mesh fabric, this hat absorbs any sweat that may occur on the head and forehead.

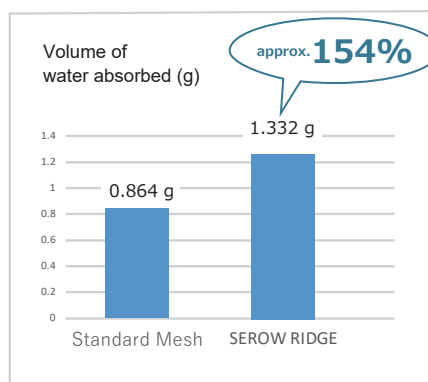

For those who sweat a lot and:

- ☑ worry about leaving sweat marks on their hats
- ☑ get the sweat into their eyes
- ☑ get a rash from wiping with a towel too much
- ☑ the sweat gets all over their glasses
- ☑ don't want to carry a towel around with them
- ☑ want to focus on working or exercising

Excellent Absorption

In comparison to **Regular mesh** and **Cotton fabric**, our unique **Serow Ridge mesh** absorbs sweat by about **154%** and **200%**, respectively.

Shake to Revitalise the absorption

Just shaking the cap removes the sweat that has accumulated, and the highly breathable fabric makes your head feel cooler when you wear the hat again.
