URL <http://www.tokyo-trade-center.or.jp/>

Tokyo Metropolitan SME Support Center supports the overseas sales promotion of this product.
Tokyo Metropolitan SME Support Center is founded by Tokyo Metropolitan Government to assist SME in Tokyo.

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
CAST Co., Ltd.	Power Blade fork lift attachment	Manufacturing	R2-014	Power Blade is a fork lift attachment to use your forklift as a bulldozer. It is available just by inserting the blade to a forklift claw fixed with the accessory ratchet belt. The blade being integrally molded by casting has high strength and durability and is made heavy for stability. There are two attachment types, around the 2.5 ton or 5.0 ton class, and the replacement blade is also available. So Power Blade is user friendly and economical, optimizing your workplace.	
Unika Company Limited	Drill bit for impact driver (battery type) (RJ, TJ, MJ, DJW)	Manufacturing	R2-015	The size of hammer drills has changed from large to small. Electric tool technology in the Japanese market, which is at the forefront, battery impact drivers have become the mainstream. Impact drivers are gradually beginning to be distributed in Asian countries, and it is expected that demand for accessories such as drill bits used in this machine will also increase.	
Matex Co., Ltd.	LGH35 Gearhead Series	Manufacturing	R2-016	Matex, celebrating its 100th anniversary in 2020, has started producing a gearhead series by combining the long-trusted Matex planetary gear units and a simple gear case. Installing the gearhead series including our advanced manufacturing technology, you can not only reduce size and cost, but also efficiently improve the design process.	
Tokushu Abe Seihanjo Co. Ltd.	Tagless Pad Printing Materials	Manufacturing	R2-044	Product is a tagless pad printing materials (printing plate, silicone pads and other consumables). In place of a tag used in clothing (apparel), brand logo, material display, laundry symbol can be printed directly onto textile fabric by pad printing. Uncomfortable and discomfort feelings using a tag can be eliminated. Pad printing is one of offset printing process that 2D image on plate can be transferred onto 3D material.	
Hino Engineering, Inc.	Camera module MultiFlex-CAM-1080E	Manufacturing	R2-057	MultiFlex-CAM is a MIPI output mode camera module supporting the CPU board's input. It can be directly embedded in the CPU board of image processing system and utilized for various devices including face recognition, image inspection or crime prevention. Full high-definition MultiFlex-CAM has high resolution of 2 million pixels. And it is very compact in size with excellent cost performance.	
Kyoritsu System Machine LTD.	P@t net-APS	Manufacturing	R2-056	P@t net-APS is to support the production efficiency to improve the operating conditions of various production facilities by visualization of data as actual production result and analysis, which is automatically collected through Data Collection Unit. Newly added an interlock function with the Asprova scheduling system, P@t net-APS enables to perform the difference analysis between production plan and result.	
TSP Co., Ltd.	VIPORE (Visual Power Report)	Manufacturing	R2-045	VIPORE is the system enabling to display statistical data and graph data such as the number of people and the attributes (gender or age) as well as queues lining up in the stores or public facilities by totalizing and analyzing video information shot by AXIS camera on our cloud computing technology. You can reasonably utilize information efficiently provided by VIPORE as marketing reports or solutions for enhancing sales and revitalizing stores.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
SYSTEM BRAIN CORPORATION	NANO MAINTENANCE SB-101	Manufacturing	R2-029	SB-101 is a new generation sanitizer deodorant developed by our unique water ionization technology that decomposes water molecules into nano-scale particles, allowing to dissolve sodium hypochlorite in pure water. Without the chlorine odor, it maintains the bactericidal effects, even for the viruses which can't be removed by alcohol, and enables the long-term preservation. SB-101 is also harmless to the human body and prevents chapped hands.	
FUTA-Q, Ltd.	Bore polished special alloy nozzle	Manufacturing	R2-028	FUTA-Q nozzle and needle, instruments for inhaling and dispensing liquid/gas samples, are made of special alloy widely used for analysis device in various fields of medical, life science, environmental, and other industries in general. The nozzle and needle can apply to a small diameter pipe under 6 mm in outside diameter.	
FUTA-Q, Ltd.	Shape discrimination device KURABERUZO	Manufacturing	R2-027	KURABERUZO is a shape discrimination device which can discriminate subtle differences of micro parts (made of stainless, titanium, plastics, etc.) ranging from 1.0 mm to 5.0 mm by putting the parts on the inspection tray. Using cameras and a microcomputer, instead of burdensome human operation using microscope, it can instantly and precisely judge the shape or detect a foreign matter based on the predetermined data.	
Mori Manufacturing Co., Ltd.	Precision cutting parts (cast and forged materials)	Manufacturing	R2-017	Our company stably provides a high quality processing of precision cutting of cast and forged materials with various kinds of small quantity production from standard to irregular shaped parts. Not merely operating precision cutting, we totally process the parts from material procurement to finishing, including heat and surface treatment after the precision cutting. Utilizing our efficient precision cutting work, you can achieve cost reduction while maintaining the product quality.	
HEIWA TECHNICAL CO., LTD.	FINE CUT H S Series	Manufacturing	R2-019	FINE CUT series are high-speed precision cutting machines enabling to cut out sample pieces for hardness measurement, metal structure observation and welding parts observation in the QC/QA or R&D field. FINE CUT series can realize a precision cutting at any position by the XYZ movement as well as performing a repeat cutting by the X-axis movement or automatic feeding mechanism.	
Seiki Sogyo Co., Ltd.	Monarch Glide Screen	Manufacturing	R2-006	Monarch Glide Screen is a "Retro-fit" retractable fly screen system enabling to prevent mosquito-borne diseases. When you open a large window or door facing the courtyard or veranda, this large screen can prevent insects from entering the room. The screen can also contribute to saving energy if you take in the cool breeze in the morning and evening.	
ACE International Trade Co., Ltd.	EXLUB®	Manufacturing	R2-007	<ul style="list-style-type: none"> Japanese ultra-extreme pressure lubricants enabling to maintain a dramatic lubricating effect for a long time. The excellent lubricating effect achieved not only the oil components, but also by the film made with our unique technology forming on a metal surface. Environment friendly lubricants with chlorine-free. Conforming to RoHS Directive. 	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Advan co., Ltd.	Multi point Heater MPH1500	Manufacturing	31-085	This product preheats only the THT parts that need to be soldered. As a consequence, SMT components are subjected to only one-time thermal stress during reflow process.	
EXcorporation	Factory-ONE GL R2.0	Manufacturing	31-088	Factory-ONE GL R2.0 was released for overseas Japanese Factories. This is a production management system including sales management, inventory management, cost management, lot tracking, and EDI system, supporting multiple languages and multiple currencies.	
Yamato Valve Co., Ltd.	Full Bore Brass Ball Valve class 600 Screw type	Manufacturing	31-072	Eco-designed compact ball valve with Japanese excellent quality. "Full Bore Brass Ball Valve class 600 Screw type" is a ball valve with excellent flow rate characteristics. It is an eco-design product with a hole to prevent abnormal pressure rise. The face to face dimension is short and it makes space saving, and cost reduce.	
Daian Service, Inc.	AIR QUEST Green	Manufacturing	31-074	An air conditioner filter that uses materials extracted from thinned timber of Fir Pine, Hokkaido. - Just stick "Green Quest" on the air-conditioner intake to reproduce the air purification system in the forest. - Possible to apply to the most types of the air conditioners. Ceiling embedded type, ceiling hanging type, wall hanging type, etc.	
Daian Service, Inc.	Air wing series	Manufacturing	31-073	One-touch installation on existing air conditioner(s) eliminates direct blows from air conditioner(s). It circulates comfortable wind to every corner in the room, eliminating uneven temperature and contributing to energy saving. There is no similar product for competitors in "Air Wing Slit", a wind shield for line type air conditioners. It has a proven trusty relation by developing collaborative products with a major air conditioner manufacturer, Daikin Industries.	
E-garde Co.,LTD	RFID UHF/HF Dual Tags	Manufacturing	31-075	Contactless IC card/tag with Japanese technologies. Non contact IC card / tag useful for collecting data unnecessary for batteries. Mainly a system vendor purchases our product and then sells to an end user for an access control or as an membership card.	
Multibook Limited	multibook	Manufacturing	31-065	A cloud-based accounting and ERP system used by 100 Japanese companies in more than 15 countries. "multibook" is ERP software for managing overseas branch and the basic concept is "multi-language, multi-currency, multi-ledger". It realizes real time sharing information of accounting & inventory between HQ & overseas branches.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
SI Synergy Technology Co., Ltd.	AI-NETWORK TERMINAL (IT8000-2420)	Manufacturing	31-058	<p>This device, which has developed a learned neural network, enables stand-alone operation in the field and enables real-time AI / IoT artificial intelligence field operation.</p> <p>By learning, analyzing and inferring various sensor information at production sites such as factories,</p> <p>1) Optimal control is possible according to the production line conditions.</p> <p>2) Failure prediction and predictive maintenance are possible.</p>	
KOMINE Co. Ltd.	Kern stütze(core support), Vent Hole, Brush	Manufacturing	31-057	<ul style="list-style-type: none"> • Kern stütze(core support): Fixing the casting core in the main mold when casting iron or non-ferrous metals. • Vent Hole: Attached to the mold, removing gas and air from the mold. • Brush: Paint mold and apply mold release agents. <p>Our own original super vent wave type is effective in reducing cleaning time and frequency.</p>	
NARA MACHINERY CO., LTD.	NARA PADDLE DRYER	Manufacturing	31-054	<p>Indirect heat transfer dryer with twin screws. Dryer size is minimized, due to the large heat transfer area per volume with the wedge shaped paddles, uniquely invented.</p> <p><User Example></p> <ul style="list-style-type: none"> • Food industry : to be used for drying and heat treatment • Chemical industry : to be used for drying and heat treatment 	
Kanesuzu Precision Co.,Ltd.	Torque Device Binder	Manufacturing	31-039	<p>It is mainly used to hold a guide wire that surgeons perform PTCA (Percutaneous Transluminal Coronary Angioplasty). It is usually built in a resin cap called a torque device. It is delivered to guide wire manufacturing companies as a guide wire accessory.</p>	
TOKUSHU KINZOKU EXCEL CO.,LTD.	Precision metal rolled material	Manufacturing	31-046	<p>Special steel, stainless steel (High spec material). Parts manufacturers process strips supplied by us into parts for automotive and electronic materials.</p> <p><Advantages></p> <ul style="list-style-type: none"> - High-quality parts can be manufactured with products manufactured by “high precision thickness” and “structure control” realized by our original equipment. - Manufacturing the product for customers specification requirement. 	
Metrol Co.,Ltd.	Air Gap Sensor <DPA-SR2/LR2>	Manufacturing	31-056	<p>Metrol' s “Air Gap Sensor [2 signal point setting type]” can take 3 steps of -NG/OK/+NG and easily determines pass or fail of the workpiece inner diameter with $\pm 0.5\mu\text{m}$ repeatability after drilling.</p> <p><Advantages></p> <ul style="list-style-type: none"> • -NG/OK/+NG 3 classifications significantly reduce the inspection time. • cost for inner diameter measurement is reduced to 1/4. 	
TOSEI ELECTROBE AM Co.,Ltd.	ELASER® (Laser Cleaning Machine)	Manufacturing	31-055	<p>An Equipment removes resin, paint, rust, and other dirt on metal surfaces with a laser.</p> <p><Advantages></p> <ul style="list-style-type: none"> - No influence on the natural and working environment. - Low running costs because no consumables such as solvents or brushes are required. - Air-cooled, Compact and portable. 	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
SHUWA INDUSTRY COMPANY LIMITED	Full Automatic Grinding Machine SGM-9000FA	Manufacturing	31-053	The SGM-9000FA Series enable to grind compound semiconductor wafers to process to flatness in micron unit with less damage. <Advantages> - SGM-9000FA's automated cassette to cassette system realizes Grinding, Rinse Cleaning and Drying. - Simultaneous grinding method for rough Grade and fine grade can achieve great throughput. - Grinding with less damage is possible.	
Jordan Co., Ltd.	「HAZARD Buster」 「Mobile OA」	Manufacturing	31-041	Reports from employees and workers in wide area are collected instantly and smoothly. Employees' safety can also be confirmed at all times. <Advantages> (1) Realize centralized management, aggregation and analysis. (2) Reports from many sites are collected and centralized in the cloud. (3) Confirming the safety of employees and workers (4) Flexible customization to meet customer needs (5) Multilingual support	
FUJI PAPER BAG MACHINE WORKS CO.,LTD.	Open-end Envelope Making Machine (FF Series)	Manufacturing	31-036	Envelope making machine capable of producing various envelope sizes for each model. <Advantages> - The FF series can produce a wide variety of products in small quantities. - The machine is speeded up. (Example: 350 sheets / min. for FF121) - Envelope resize is easier and production efficiency is improved. - The dimensional accuracy and finish of products are high.	
Japan Sensor Corporation	Infrared thermometers	Manufacturing	31-032	“Infrared thermometers” and “Displays and Setting units” <Advantages> - The world's fastest response time(0.1ms) - Usable with small targets; minimum Φ0.15 mm. - Easy adjust with the optical coaxial LED sight.	
KAMUI CO.,LTD.	LC TYPE OILCOOLER	Manufacturing	31-021	“Oil cooler for cooling hydraulic oil / lubricant in hydraulic machine” <Advantages> - By using a heat exchanger to maintain the temperature of the hydraulic fluid properly, it is possible to prevent the hydraulic fluid from deteriorating, maintain the efficiency of the hydraulic system, and extend the life of the system. - As a manufacturer of hydraulic oil coolers, we have the highest level of recognition overseas. Our products are highly reliable and most widely used by major companies and electric power companies in Japan.	
KYORAKU CO., LTD.	Blow Molding Machines	Manufacturing	31-013	Blow molding machine tuned by Japanese top manufacturer. <Advantages> - Investment cost will be about 1/2 in comparison with other makers' products. - Utility cost has been reduced by 30%. - Energy saving (30% reduction compared to our conventional products), weight reduction, cooling efficiency improvement.	
NEWLONG INDUSTRIAL Co., LTD.	BAG MAKING MACHINE model TS2746H	Manufacturing	31-042	Automatic machine for making small shopping bags (with handle) used in department stores and shopping malls. <Advantages> - The size of each unit of the machine can be changed by simply setting the touch panel. - Reduce tube loss and size change setting time.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
TOKYO BRAZE CO.,LTD.	Aluminum brazing flux "TB-500"	Manufacturing	31-031	Aluminum brazing can be easily done by using this flux. <Advantages> - Less brazing defects and no requirement of expert worker's skill. - Excellent performance with airtight brazing. - A 50-year long-seller product selling mainly in Asian countries.	
Yuki Precision Co.,Ltd.	Precision Machining of Titanium and Inconel Parts	Manufacturing	31-020	"Precision Machined Parts for Aerospace and Medical Industry" These high performance metals enable parts with high strength to weight ratios and corrosion resistance or heat resistance. Beyond use in aerospace and medical applications, the materials will be an important part of emerging technologies such as energy and robotics.	
DREMAX CO., LTD.	Vegetable Slicer for business	Manufacturing	31-026	<Advantages> ●F-2000S/D (Picture on the right) : 3 ways of cut performance in 1 machine ●DX-100 & DX-50T : Using planetary motion system of round blade technology.(Patent) ●DM-91D : Highly versatile cut performance ●S19D : Manual vegetable slicer	
NET AND PRINT INC.	GHS label printer LP-812W	Manufacturing	31-027	High-speed 2-colors Thermal transfer Label Printer for GHS Pictogram. <Application> Petrochemical package labeling, Box labeling, Containers shipping labeling, Tag plate /adhesive labeling, Product identification like bar code / QR code, Film printing onto PET / PP, Printing matters required 2-colors	
TAKETOMO ELECTRIC INCORPORATED	TENSIPRESSER MyBoy II SYSTEM	Manufacturing	31-028	By reproducing human chewing motion for measurement, "TENSIPRESSURE My Boy2 SYSTEM" quantifies the properties of texture as numerical data. <User Example> (1)Researcher of Food Manufacturer: Analyzing chewing feel of hardness, viscosity, etc. for development of new products (2)QC of food production line: Check numerical data of food texture for quality control	
AKATSUKI ELECTRIC MFG. CO., LTD	Ticket Vending and Payment Machine with Signage Model "AGS-HPK-01"	Manufacturing	31-007	This is the "Ticket Vending and Self-checkout Machine with Signage function" for overseas markets. With the installation of high-performance machine, it makes possible to shorten selling time of ticket and increase customer's satisfaction and also simplify process of cash management. <Use> · Food ticket vending machine · Automatic register and settlement machine · Hotel check-in and bill payment	
YOSHINOKA SEI CO., LTD.	Masking film for painting	Manufacturing	31-006	This product is a film to mask unpainted parts. The tape that holds the film to object is united. 【Advantages of the Product】 - Work efficiency is high - Masking effect is high - No harmful components occur even if incinerated	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Hirota Corporation	Wood Automatic Feed Carriage Machine	Manufacturing	31-005	Setting up the logs or semi product wood at the machine bed and automatically cut through saw mill machine. - Purpose of use: The machine is used for logs (raw material) cutting producers, wood process and saw mill, construction and house builders, construction materials, furniture companies etc. - Examples: It is used widely as standard wood process. There are batch and continuous type. It is applied small-mid factories 25,000-100,000M3(100,000-400,000 production per year) and large factories 100,000M3(400,000 production per year).	
RAYAMAPACK CO.,LTD.	V.bender	Manufacturing	31-004	This equipment achieves continuous processing of bending the end face of a blister pack used for storefront display and product protection. It is used when processing into the shape of a blister pack by vacuum forming processing makers or end product makers having a vacuum forming equipment.	
CIMTOPS CORPORATION	ConMas i-Reporter	Manufacturing	30-130	Current daily-use paper report in Excel turns digital report while remaining merit of paper form. Old paper form workflow that we couldn't change until now is finally possible to digitalize and improve work efficiency and speed.	
TOK Engineering Co., Ltd.	NIP-GH : Magnetic field metal detector	Manufacturing	31-003	<ul style="list-style-type: none"> ●Magnetic field metal detector NIP-GH is designed for large size products to inspect the products in aluminum vapor deposition package, high temperature products, frozen products and high concentration salt products with high sensitivity. ●Capable to inspect whole the box and tray of the final shipping form. ●Suitable for the inspection of the products of catering, vegetable and meat processing, wholesales and shop-use food manufacturers. 	
Social Area Networks Co., Ltd.	Live Location Service	Manufacturing	31-008	Realized real time location tracking with ultra thin card type device (LoRa, Bluetooth, RFID, GPS, Accelemerter) 【Examples of use】 <ul style="list-style-type: none"> - Employees Location information - Watching over children - Factory internal traffic line management - Inbound marketing - Position information of workers at construction site - Ekiden runner position 	
KAJIWARA INC.	Cooking & Mixing Machinery	Manufacturing	30-134	<ul style="list-style-type: none"> ●Model OAM <ul style="list-style-type: none"> · Labor saving & unmanned production by All-in-one-batch operation. · Steam Heating. Kettle capacity : 590 – 6,000L ●Model KRS+M <ul style="list-style-type: none"> · The world biggest Frying Pan · Gas Heating. Pan capacity: 200 – 500L · Short-time Cooking by High Temperature Heating 	
System Brain Corporation	NANO SHINE	Manufacturing	30-125	A device that automatically generates a liquid glass-based coating from tap water. You can shield the body surface to various vehicles such as cars and trains. Proprietary developed composite ceramic is build in. When tap water passes through the composite ceramic, it changes to ionized water containing charged silica molecules. Not only the car body but also the headlights, wheels and window glass can be coated.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
a-Sol Japan	Static Electricity Detection/Access control system "Sems II"	Manufacturing	30-122	<ul style="list-style-type: none"> ● This system conducts electrostatic check before the worker enters the workplace. Only workers who passed can pass through the gate at the entrance of the workplace. Just ride the detection plates, insert the wrist strap and touch the contact panel. ● While preventing ESD damage to the product, managing inspection history guarantees the reliability of ESD prevention. 	
Asprova Corporation	Asprova SCM	Manufacturing	30-129	<p>Asprova SCM assists to create and manage the supply chain schedule with visualized and overall optimized.</p> <ul style="list-style-type: none"> - Asprova SCM formulates an appropriate site production plan across factories in Japan and overseas, and creates an efficient transportation plan among locations. - Asprova SCM creates a contingency plan for geopolitical risk, decentralized production of the same parts at multiple sites. 	
Carton Optical Industries, Ltd	Industrial microscope	Manufacturing	31-002	<ul style="list-style-type: none"> ● SPZV-50PG 6.7x-50x stereo zoom microscope for the use of visual inspection of electronic components, semiconductor pc boards and scratches, dusts and cracks of precious parts. ● CTL-200 Metallurgical microscope designed for observation on monitor screen for the use of observation and analysis of fracture surface and cut section of metal by metallic parts manufacturers. 	
MARUHIDE KOKI CO.,LTD.	Pipe profile cutting machine 「Pipe coaster MA series」	Manufacturing	30-123	<p>Pipe Coaster is Ideal Pipe profile cutting machine which can cover many processing method (cutting, marking and modeling) and cover many industrial applications include Pressure vessel, offshore jackets, shipbuilding, steel construction, process and crane building industries. The following pipe structures are recognized in the world made of pipes processed by pipe coasters; Bangkok International airports (Thai), Kuala Lumpur (Malaysia), Incheon International Airport (Korea) and Tokyo Sky Tree (Tokyo).</p>	
Napson Corporation	Resistivity Measurement Tester and Stage 「RT-70V Series」	Manufacturing	30-096	<p>Contact type desktop resistance measurement system for the silicon, polysilicon, SiC, new material etc. Manufacturing company of Silicon wafer, Flat panel display and Solar cell can use this system to check the quality of their product.</p> <p>Various application can be measured. *a silicon wafer, conductive layer on thin film, New materials and functional materials like a Carbon nanotube, graphene and Ag nanowire etc</p>	
NARITA TECHNO Co., Ltd.	SINGLE ENDED RADIANT TUBE BURNER	Manufacturing	30-097	<p>This is a proprietary indirect heating type of gas burner developed as a heating source for industrial furnaces (mainly for heat treatment furnaces). The interior of the furnace is filled with combustible gases (atmospheric gas). By developing a new exhaust heat recovering structure in the burner body, a high thermal efficiency (based on exhaust loss) of 75% is achieved.</p> <p>【PRINCIPAL USES】(Atmospheric) Heat treatment furnace: Arburizing furnace, Nitriding furnace, Annealing furnace, Quenching furnace, Tempering furnace, etc.</p>	
TAMURA Co., Ltd.	dileka	Manufacturing	30-118	<p>dileka comes with a built-in, double-hexagonal nanotube to further boost the condenser function, making water softer, tastier and with even more assimilating powers.</p> <p><Advantages></p> <ul style="list-style-type: none"> - Abundant use of high quality, ionised water throughout the home - Increase production and quality in the agriculture · fishery · livestock etc - Decreasing mortality rate and increasing health on farmed animals and plants 	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
TAMURA Co.,Ltd.	SCHAUBer	Manufacturing	30-119	SCHAUBER's main function is to protect the operators from many of the health concerns arising from working with fluids that are oxidized and degraded. <Advantages> - Recycling fluids can lead to significant cost reduction - Mitigation of skin problems - Minimizing oil decay - Reduction of odour etc	
Sunarrow Limited	CFRTP Parts	Manufacturing	30-109	Rubber or Plastic CMF parts, insert-molded with Carbon cloth prepreg. - Insert molding technology of Rubber or Plastic, with Carbon cloth. Carbon cloth has features such as light weight, high strength, high Flame resistance. - In addition to insert molding technology, our adhesion technology with Metal or plastic or rubber parts, achieves High Designability composite parts.	
Shinmei CO., Ltd	Egg Pack overlay labeling machine ALS-1000SCS	Manufacturing	30-117	A machine which prints the expiry date and other details on the labels and automatically paste them on the egg packets. Market share in Japan is more than 95%. <Advantages> - Easy operation and processing ability are excellent - Function of checking the date & eggs packed correctly - Voice guidance (option)	
Piezo Parts Co., Ltd.	Quartz Crystal Microbalance (QCM)	Manufacturing	30-053	When material adheres to the electrode surface of the QCM sensor, the resonant frequency changes according to the mass of the material. In other words, the QCM sensor is capable of sensing the nano-gram range of mass and therefore a great tool of mass measurement. <Usage> Biosensor, Odor sensor, Dangerous gas detecting sensor and more in various fields.	
CASTEM CO., Ltd.	Lost wax products with stainless steel, steel and aluminum	Manufacturing	30-071	Lost wax products with stainless steel, steel and aluminum, MIM products with stainless steel and steel. Multiple variety product · small lot production, mold-less trial production from 1 piece.	
TOHO SHEET&FRAME CO.,LTD	Polycarbonate & Glass multi-layer hybrid window	Manufacturing	30-083	I.G.P (Insulation Glass & Polycarbonate) is a type of window constructed from a layer of polycarbonate incorporated into the glass unit, which results in increased impact resistance, stable product quality, improved resistance to condensation, lightweight, and reduced installation time. < Application > Railway cars, buses and ships (mass transportation), construction machinery, machine tool windows.	
TripodWorks CO.,LTD	BLUE-Connect	Manufacturing	30-086	BLUE-Connect is an IoT platform that realizes integrated management of vehicles used for business such as trucks, buses and taxis. It can also be expanded as an IoT platform for bundling and managing various sensors in the factory.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Watty Corporation	Liquid Level Sensor Type HL	Manufacturing	30-005	<p>Liquid Level Sensor</p> <p>Our Liquid Level Sensors are perfect for any type of liquid tank</p> <p>① Medical Equipment:Reagent Liquid level sensing ② Vehicle Use:Engine oil level sensing ③ Air-conditioner:Drain water level sensing ④ Flood detection</p>	
Watty Corporation	Angle Sensor HA	Manufacturing	30-006	<p>Sensor that can sense the inclination angle of objects in 2 axes</p> <p>① To monitor stationary angle of construction machines ② To prevent overturn of vehicles ③ To detect fall or inclination of furnitures</p>	
FLUID ENGINEERING CO., LTD.	ROTARY VALVE	Manufacturing	30-023	<p>Rotary Valve is a machine that can feed and discharge powders · particles in the most compact and low cost.It is lower cost, compact, excellent sealing performance and more reliable than other competitor.</p>	
FLUID ENGINEERING CO., LTD.	DOUBLE FLAP DAMPER	Manufacturing	30-024	<p>This machine is exclusive use for discharging powder · particle. Maintaining high sealing performance against air (gas), discharging powder · particles from the end of pneumatic conveyor, under the cyclones of the dust collectors, or the bag filters, etc. in factories handling with powder · particle such as raw materials.</p>	
CenturyArks Co., Ltd.	NEW KiryalyArt Mask Filter, KiralyArt Air-conditioner filter	Healthcare	R2-043	<p>KiryalyArt is a series of products using filters being coated by Etak®, antimicrobial and bactericidal agents whose effect is recognized by Kitasato University Medical Center.</p> <p>Attaching KiralyArt Mask Filter to a mask enables to improve the antibacterial and antiviral effects, and fitting KiralyArt Air conditioner filter to the inlet of air-conditioner can provide clean air by the excellent antimicrobial functions.</p>	
Sokenmedical Co.,Ltd.	NEW Winnerlights	Healthcare	R2-039	<p>Winnerlights is an innovative perception training system to provide effective training methods to improve the perception and decision-making skills required for various kinds of sports.</p> <p>Winnerlights provide various training programs by changing colors of bibs or goal using devices like smartphone, enabling the latest trainings based on the AI analysis.</p>	
Shimura Precision Co., Ltd.	NEW Metal working parts for medical devices	Healthcare	R2-023	<p>Shimura Precision supplies precision parts for medical devices such as endoscope, laparoscope and infusion pumps.</p> <p>With the advanced technical capability and cutting-edge precision machineries, such as CNC machines or 3D measuring machines, Shimura Precision is able to stably supply complicated shaped parts.</p>	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Inami & Co., Ltd.	NEW M. Q. A. Stick Stout	Healthcare	31-079	M.Q.A. is the representative ophthalmic sponge to be used for eye surgery. Using this sponge in the ophthalmic surgery helps a doctor to secure the surgical field by immediately absorbing the body fluid or water. Without using surgical tweezers, this sponge is available swiftly after opening.	
KYOTO KAGAKU CO., LTD	Simulators for Medical and Nursing Care Training	Healthcare	R2-001	As the top share in Japan, our human body simulators for medical training imparting various characteristics with realistic tactile sensations including puncture sensation, ultrasonic image, and anatomical structure, enable for medical professionals and trainees to practically train their skills.	
HOMER ION Laboratory Co., Ltd.	G-TES. General Therapeutic Electrical Stimulator	Healthcare	R2-003	G-TES, manufactured in Japan, can provide exercise substitutes such as muscle training and aerobic exercise for patients who have difficulty exercising. The products are installed in many fields such as orthopedics, rehabilitation, dialysis, ICU, or nursing care. - Applicable to the whole lower limbs - Easy to use, enabling every operator to provide the same quality	
FUJI FLEX Co., Ltd.	Medical cart Medion II	Healthcare	R2-021	Medion II is a medical cart for endoscope being manufactured in-house at our own factory, available to install in a small space and widely used in hospitals over Japan. You can monitor the endoscope images on the display monitor equipped with the movable arm of the top of the cart. Medion II with various accessories is flexibly adapt to various situations as you need.	
Fujidenolo Co. Ltd.	MAGGUARD, Ferromagnetic Material Detector for MRI Safety	Healthcare	R2-002	MAGGUARD is a ferromagnetic material detector equipped with high-sensitive MI sensors enabling to detect a disturbance of the magnetic field. It can prevent from projectile effect or data loss caused by unintentionally taking ferromagnetic objects into the MRI room.	
FUJITA MEDICAL INSTRUMENTS Co., Ltd.	Automatic electronic blood pressure monitor (VIMMS VM-BP)	Healthcare	R2-037	VIMMS VM-BP is a lightweight and compact portable medical equipment that can easily measure blood pressure in upper arm, and can be used for remote monitoring. This system enables health care professionals to obtain essential vital sign - blood pressure in real-time and thus can provide appropriate instructions/prescription immediately.	
BHN Co., Ltd.	blood pressure monitor	Healthcare	31-089	The product specializing in beautiful skin and whitening that contains low molecular weight collagen and glutathione. By continuing to take it every day, you can supplement the collagen that decreases with age, and as a result, keep your skin firm and prevent wrinkles and dryness. In addition, the effect of glutathione leads to whitening.
