Tokyo Metropolitan SME Support Center supports the overseas sales promotion of this product.  
Tokyo Metropolitan SME Support Center is founded by Tokyo Metropolitan Government to assist SME in Tokyo.

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
1	SUNARROW LIMITED	Various composite parts	Manufacturing	R2-046	<p>①To provide a parts with high-functionality (e.g. prevention of interference on radio and light) by integrating multiple different materials such as rubber, metal, fiber sheet, etc.</p> <p>②To realize weight-saving and prevention of forgetting attachment by integrating multiple materials with different characteristics</p> <p>③To realize the parts appearance of 3D decoration,high quality, high functionality, and high durability by integrating multiple materials</p>	
2	Konno Corporation	Lifting Jack Model: LJ-150	Manufacturing	3-011	LJ-150 is an integral hydraulic wedge that allows for vertical lifting or lowering of heavy items through the just 9.5mm access gap. The two safety blocks hold the object being lifted in place while changing jacks, ensuring that the operation is safe. As compared to other jacks with the similar performance, the LJ-150 is exceptionally light, weighing just 10 kg, making operations easier and requiring less workload.	
3	TDI ELECTRONICS CO., LTD.	Capacitive Sensor & Switch	Manufacturing	R3-010	We produce PET film capacitive sensors with conductive ink-printed circuit. The capacitive sensor, which measures the capacitance change between fingers and itself, is used to form touch sensors and non-contact sensors.	
4	INNOPHYS CO., LTD.	MUSCLE SUIT Every	Manufacturing	R3-012	Muscle suit "Every" is a wearing assist suit to help lightening the load on your back from work and daily labor-intensive activities. With artificial muscle operated by air pressure, "Every" helps to reduce the load at supporting people, carrying heavy items and standing in a half-sitting position, and contributes to improving the work environment and manpower shortage.	
5	UCAN Co., Ltd.	centralized air conditioning system	Manufacturing	R2-080	Ultrasonic humidifiers built into centralized A/C system such as air handling unit, all-in-one A/C system and duct, etc.	
6	Helvetia Inc.	Power Line Communication Module / Device	Manufacturing	R2-007	These products are to construct a data network using existing power lines (AC/DC) or coaxial cables.Using HD-PLC (High Definition Power Line Communication) technology, our products realize "Internet of Things" easily with just connecting sensors or control devices without new wiring, which leads to cost reductions. These are ideal for supporting several systems such as factory automation, flame detection and warning, and other various systems.	
7	HiSOL, INC.	Desktop Flip Chip Bonder M90	Manufacturing	R2-059	Flip chip bonder M90 is a small bonding machine that can be installed on the desktop. With a low-cost investment, customer will be able to achieve high-accuracy bonding in the order of microns. The wiring length can be shortened so that electrical loss can be lowered. Most suitable for fabricating and developing prototypes, and collecting setting data of mass-production equipment.	
8	IGUCHI KIKO CO., LTD.	Cleanroom Ball Transfer	Manufacturing	R2-031	Cleanroom Ball Transfers are applied effectively and extensively in Flat Panel Display and Photovoltaic production lines due to our innovative technology for alignment and positioning of glass substrates. Adopting engineering plastics as material of balls, the Cleanroom Ball Transfers realize to reduce cracks on glass substrates. Our original and unique clean-technology enables to suppress particle generation to the highest cleanliness.	
9	Arc Geo Support Co., Ltd.	Hydrographic and Bathymetric Survey Service	Manufacturing	R2-070	Our team of licensed professionals provides high precision Hydrographic and Bathymetric Surveys using the state-of-the-art technology and our original light weight ASV (Autonomous Survey Vehicle) . This product is to conduct three-dimensional bathymetric survey especially at the shallow area even at 0.5m of water depth. We conduct not only surveys of harbor/coast/dam/river/offshore but also special measurement /underwater structure survey.	
10	Yamato Gokin Co., Ltd.	and ASV Seafloor Topography	Manufacturing	R2-030	Aluminum bronze alloys HRW-1 (High Resistance Wear-1) are special copper alloys having both excellent mechanical properties (tensile strength of over 640MPa, elasticity of over 15%, hardness of over 180HBW (30/1000)) and excellent wear resistance. As a material for sliding parts that require a high load, weight reduction and miniaturization, HRW-1 is the most suitable material for worm gear, bearings, liners, bushes, joints, wipers, etc.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
11	THERMO RIKO CO., LTD.	SR1800G, Ultra-High Temperature RTA System	Manufacturing	31-086	Heating device for creative research of new material. Table top product which infrared generating and sample spot are placed in trestle. It allows to heat super fast silicon carbide, graphene and advanced electronics. This is an improved version from the infrared guide heating device selected as a supporting product last year. It makes temperature rise up to 1800°C.	
12	THERMO RIKO CO., LTD.	Infrared Guide heating system GA298	Manufacturing	31-087	Heating device to raise the temperature of the sample for a very short time by radiating infrared from light focus mechanism. Infrared ray are radiated from the tip of Guide rod for rising temperature of the sample. Attainable temperature 1500°C. Heating area about 20 mm diameter.	
13	HiSOL, INC.	Laser Decap PRO 2	Manufacturing	R2-058	Laser Decap PRO2 is a device for decapsulating semiconductors and electronic components to do the pretreatment for failure analysis, which needs to analyze the inside of the package including IC chips or wire-bonded components. Using the excellent laser of Laser Decap PRO2 to remove the mold resin of the objects for pretreatment enables a high-precision failure analysis without any damage.	
14	Seidensha Electronics Co., Ltd.	New JII-series Ultrasonic Welders	Manufacturing	R2-060	The new JII-series ultrasonic welders cover wide welding needs from small to large workpieces by ease-of-use and consistency of fast and quality welding as well as optional industrial network connectivity. The new JII-series are used in various production scenes from small scaled hand-welding to large scaled automated welding equipment.	
15	Nanodax Co., Ltd	purging pellet for plastic injection machine "ecomaru"	Manufacturing	R2-064	"ecomaru" is the purging pellet for plastic injection machine, dedicated to black dot removal improvement, kneading Glass Wool. It is suitable for high quality molded plastic production. Thanks to Glass Wool which is extra fine and flexible, removes unnecessary substances physical by the glass fibers' edges, suppressing a scratch inside plastic injection machine.	
16	TOYO YOZAI Co., Ltd.	TOYO CLEAN COPPER	Manufacturing	30-132	Antioxidant (inner surface of copper pipe) when brazing copper pipe for refrigerant. Compared to the conventional nitrogen replacement method, it enables a significant cost reduction.	
17	CAST Co., Ltd.	Power Blade fork lift attachment	Manufacturing	R2-014	Power Blade is a fork lift attachment to use your forklift as a bulldozer. It is available just by inserting the blade to a forklift claw fixed with the accessory ratchet belt. The blade being integrally molded by casting has high strength and durability and is made heavy for stability. There are two attachment types, around the 2.5 ton or 5.0 ton class, and the replacement blade is also available. So Power Blade is user friendly and economical, optimizing your workplace.	
18	Unika Company Limited	Drill bit for impact driver (battery type) (RJ, TJ, MJ, DJW)	Manufacturing	R2-015	The size of hammer drills has changed from large to small. Electric tool technology in the Japanese market, which is at the forefront, battery impact drivers have become the mainstream. Impact drivers are gradually beginning to be distributed in Asian countries, and it is expected that demand for accessories such as drill bits used in this machine will also increase.	
19	Matex Co., Ltd.	LGH35 Gearhead Series	Manufacturing	R2-016	Matex, celebrating its 100th anniversary in 2020, has started producing a gearhead series by combining the long-trusted Matex planetary gear units and a simple gear case. Installing the gearhead series including our advanced manufacturing technology, you can not only reduce size and cost, but also efficiently improve the design process.	
20	Tokushu Abe Seihanjo Co. Ltd.	Tagless Pad Printing Materials	Manufacturing	R2-044	Product is a tagless pad printing materials (printing plate, silicone pads and other consumables). In place of a tag used in clothing (apparel), brand logo, material display, laundry symbol can be printed directly onto textile fabric by pad printing. Uncomfortable and discomfort feelings using a tag can be eliminated. Pad printing is one of offset printing process that 2D image on plate can be transferred onto 3D material.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
21	Hino Engineering, Inc.	Camera module MultiFlex-CAM-1080E	Manufacturing	R2-057	MultiFlex-CAM is a MIPI output mode camera module supporting the CPU board's input. It can be directly embedded in the CPU board of image processing system and utilized for various devices including face recognition, image inspection or crime prevention. Full high-definition MultiFlex-CAM has high resolution of 2 million pixels. And it is very compact in size with excellent cost performance.	
22	Kyoritsu System Machine LTD.	P@t net-APS	Manufacturing	R2-056	P@t net-APS is to support the production efficiency to improve the operating conditions of various production facilities by visualization of data as actual production result and analysis, which is automatically collected through Data Collection Unit. Newly added an interlock function with the Asprova scheduling system, P@t net-APS enables to perform the difference analysis between production plan and result.	
23	TSP Co., Ltd.	VIPORE (Visual Power Report)	Manufacturing	R2-045	VIPORE is the system enabling to display statistical data and graph data such as the number of people and the attributes (gender or age) as well as queues lining up in the stores or public facilities by totalizing and analyzing video information shot by AXIS camera on our cloud computing technology. You can reasonably utilize information efficiently provided by VIPORE as marketing reports or solutions for enhancing sales and revitalizing stores.	
24	SYSTEM BRAIN CORPORATION	NANO MAINTENANCE SB-101	Manufacturing	R2-029	SB-101 is a new generation sanitizer deodorant developed by our unique water ionization technology that decomposes water molecules into nano-scale particles, allowing to dissolve sodium hypochlorite in pure water. Without the chlorine odor, it maintains the bactericidal effects, even for the viruses which can't be removed by alcohol, and enables the long-term preservation. SB-101 is also harmless to the human body and prevents chapped hands.	
25	FUTA-Q, Ltd.	Bore polished special alloy nozzle	Manufacturing	R2-028	FUTA-Q nozzle and needle, instruments for inhaling and dispensing liquid/gas samples, are made of special alloy widely used for analysis device in various fields of medical, life science, environmental, and other industries in general. The nozzle and needle can apply to a small diameter pipe under 6 mm in outside diameter.	
26	FUTA-Q, Ltd.	Shape discrimination device KURABERUZO	Manufacturing	R2-027	KURABERUZO is a shape discrimination device which can discriminate subtle differences of micro parts (made of stainless, titanium, plastics, etc.) ranging from 1.0 mm to 5.0 mm by putting the parts on the inspection tray. Using cameras and a microcomputer, instead of burdensome human operation using microscope, it can instantly and precisely judge the shape or detect a foreign matter based on the predetermined data.	
27	Mori Manufacturing Co., Ltd.	Precision cutting parts (cast and forged materials)	Manufacturing	R2-017	Our company stably provides a high quality processing of precision cutting of cast and forged materials with various kinds of small quantity production from standard to irregular shaped parts. Not merely operating precision cutting, we totally process the parts from material procurement to finishing, including heat and surface treatment after the precision cutting. Utilizing our efficient precision cutting work, you can achieve cost reduction while maintaining the product quality.	
28	HEIWA TECHNICA CO., LTD.	FINE CUT H S Series	Manufacturing	R2-019	FiNE CUT series are high-speed precision cutting machines enabling to cut out sample pieces for hardness measurement, metal structure observation and welding parts observation in the QC/QA or R&D field. FiNE CUT series can realize a precision cutting at any position by the XYZ movement as well as performing a repeat cutting by the X-axis movement or automatic feeding mechanism.	
29	Nihon Seikoh Giken Co., Ltd.	Time Prism 2019	Manufacturing	R2-005	A Japanese Kaizen software tool that uses video footage in the analysis and improvement of process. In various industries, widely used as a support tool of work improvement and education.	
30	Seiki Sogyo Co., Ltd.	Monarch Glide Screen	Manufacturing	R2-006	Monarch Glide Screen is a "Retro-fit" retractable fly screen system enabling to prevent mosquito-borne diseases. When you open a large window or door facing the courtyard or veranda, this large screen can prevent insects from entering the room. The screen can also contribute to saving energy if you take in the cool breeze in the morning and evening.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
31	ACE International Trade Co., Ltd.	EXLUB®	Manufacturing	R2-007	<ul style="list-style-type: none"> <li>• Japanese ultra-extreme pressure lubricants enabling to maintain a dramatic lubricating effect for a long time.</li> <li>• The excellent lubricating effect achieved not only the oil components, but also by the film made with our unique technology forming on a metal surface.</li> <li>• Environment friendly lubricants with chlorine-free.</li> <li>• Conforming to RoHS Directive.</li> </ul>	
32	Advan co., Ltd.	Multi point Heater MPH1500	Manufacturing	31-085	This product preheats only the THT parts that need to be soldered. As a consequence, SMT components are subjected to only one-time thermal stress during reflow process.	
33	EXcorporation	Factory-ONE GL R2.0	Manufacturing	31-088	Factory-ONE GL R2.0 was released for overseas Japanese Factories. This is a production management system including sales management, inventory management, cost management, lot tracking, and EDI system, supporting multiple languages and multiple currencies.	
34	Yamato Valve Co., Ltd.	Full Bore Brass Ball Valve class 600 Screw type	Manufacturing	31-072	Eco-designed compact ball valve with Japanese excellent quality. "Full Bore Brass Ball Valve class 600 Screw type" is a ball valve with excellent flow rate characteristics. It is an eco-design product with a hole to prevent abnormal pressure rise. The face to face dimension is short and it makes space saving, and cost reduce.	
35	Daian Service, Inc.	AIR QUEST Green	Manufacturing	31-074	An air conditioner filter that uses materials extracted from thinned timber of Fir Pine, Hokkaido. <ul style="list-style-type: none"> <li>- Just stick "Green Quest" on the air-conditioner intake to reproduce the air purification system in the forest.</li> <li>- Possible to apply to the most types of the air conditioners. Ceiling embedded type, ceiling hanging type, wall hanging type, etc.</li> </ul>	
36	Daian Service, Inc.	Air wing series	Manufacturing	31-073	One-touch installation on existing air conditioner(s) eliminates direct blows from air conditioner(s). It circulates comfortable wind to every corner in the room, eliminating uneven temperature and contributing to energy saving. There is no similar product for competitors in "Air Wing Slit", a wind shield for line type air conditioners. It has a proven trusty relation by developing collaborative products with a major air conditioner manufacturer, Daikin Industries.	
37	Multibook Limited	multibook	Manufacturing	31-065	A cloud-based accounting and ERP system used by 100 Japanese companies in more than 15 countries. "multibook" is ERP software for managing overseas branch and the basic concept is "multi-language, multi-currency, multi-ledger". It realizes real time sharing information of accounting & inventory between HQ & overseas branches.	
38	SI Synergy Technology Co., Ltd.	AI-NETWORK TERMINAL (IT8000-2420)	Manufacturing	31-058	This device, which has developed a learned neural network, enables stand-alone operation in the field and enables real-time AI / IoT artificial intelligence field operation. By learning, analyzing and inferring various sensor information at production sites such as factories, <ol style="list-style-type: none"> <li>1) Optimal control is possible according to the production line conditions.</li> <li>2) Failure prediction and predictive maintenance are possible.</li> </ol>	
39	KOMINE Co. Ltd.	Kern stütze(core support), Vent Hole, Brush	Manufacturing	31-057	<ul style="list-style-type: none"> <li>• Kern stütze(core support): Fixing the casting core in the main mold when casting iron or non-ferrous metals.</li> <li>• Vent Hole: Attached to the mold, removing gas and air from the mold.</li> <li>• Brush: Paint mold and apply mold release agents.</li> </ul> <p>Our own original super vent wave type is effective in reducing cleaning time and frequency.</p>	
40	Kanesuzu Precision Co.,Ltd.	Torque Device Binder	Manufacturing	31-039	It is mainly used to hold a guide wire that surgeons perform PTCA (Percutaneous Transluminal Coronary Angioplasty). It is usually built in a resin cap called a torque device. It is delivered to guide wire manufacturing companies as a guide wire accessory.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
41	SHUWA INDUSTRY COMPANY LIMITED	Full Automatic Grinding Machine SGM-9000FA	Manufacturing	31-053	The SGM-9000FA Series enable to grind compound semiconductor wafers to process to flatness in micron unit with less damage. <Advantages> - SGM-9000FA's automated cassette to cassette system realizes Grinding, Rinse Cleaning and Drying. - Simultaneous grinding method for rough Grade and fine grade can achieve great throughput. - Grinding with less damage is possible.	
42	Jorudan Co., Ltd.	「HAZARD Buster」 「Mobile OA」	Manufacturing	31-041	Reports from employees and workers in wide area are collected instantly and smoothly. Employees' safety can also be confirmed at all times. <Advantages> (1) Realize centralized management, aggregation and analysis. (2) Reports from many sites are collected and centralized in the cloud. (3) Confirming the safety of employees and workers (4) Flexible customization to meet customer needs	
43	KAMUI CO.,LTD.	LC TYPE OILCOOLER	Manufacturing	31-021	“Oil cooler for cooling hydraulic oil / lubricant in hydraulic machine” <Advantages> - By using a heat exchanger to maintain the temperature of the hydraulic fluid properly, it is possible to prevent the hydraulic fluid from deteriorating, maintain the efficiency of the hydraulic system, and extend the life of the system. - As a manufacturer of hydraulic oil coolers, we have the highest level of recognition overseas. Our products are highly reliable and most widely used by major companies and electric power	
44	NET AND PRINT INC.	GHS label printer LP-812W	Manufacturing	31-027	High-speed 2-colors Thermal transfer Label Printer for GHS Pictogram. <Application> Petrochemical package labeling, Box labeling, Containers shipping labeling, Tag plate /adhesive labeling, Product identification like bar code / QR code, Film printing onto PET / PP, Printing matters required 2-colors	
45	TAKETOMO ELECTRIC INCORPORATED	TENSIPRESSER MyBoy II SYSTEM	Manufacturing	31-028	By reproducing human chewing motion for measurement, “TENSIPRESSURE My Boy2 SYSTEM” quantifies the properties of texture as numerical data. <User Example> (1)Researcher of Food Manufacturer: Analyzing chewing feel of hardness, viscosity, etc. for development of new products (2)QC of food production line: Check numerical data of food texture for quality control	
46	YOSHINO KASEI CO., LTD.	Masking film for painting	Manufacturing	31-006	This product is a film to mask unpainted parts. The tape that holds the film to object is united. 【Advantages of the Product】 - Work efficiency is high - Masking effect is high - No harmful components occur even if incinerated	
47	CIMTOPS CORPORATION	ConMas i-Reporter	Manufacturing	30-130	Current daily-use paper report in Excel turns digital report while remaining merit of paper form. Old paper form workflow that we couldn't change until now is finally possible to digitalize and improve work efficiency and speed.	
48	MARUHIDE KOKI CO.,LTD.	Pipe profile cutting machine 「Pipe coaster MA series」	Manufacturing	30-123	Pipe Coaster is Ideal Pipe profile cutting machine which can cover many processing method(cutting ,marking and modeling) and cover many industrial applications include Pressure vessel, offshore jackets, shipbuilding, steel construction, process and crane building industries. The following pipe structures are recognized in the world made of pipes processed by pipe coasters; Bangkok International airports (Thai), Kaula Lumpur (Malaysia), Incheon International Airport (Korea) and Tokyo Sky Tree (Tokyo).	
49	TOHO SHEET&FRAME CO.,LTD	Polycarbonate & Glass multi-layer hybrid window	Manufacturing	30-083	I.G.P (Insulation Glass & Polycarbonate) is a type of window constructed from a layer of polycarbonate incorporated into the glass unit, which results in increased impact resistance, stable product quality, improved resistance to condensation, lightweight, and reduced installation time. < Application > Railway cars, buses and ships (mass transportation), construction machinery, machine tool windows.	
50	TripodWorks CO.,LTD	BLUE-Connect	Manufacturing	30-086	BLUE-Connect is an IoT platform that realizes integrated management of vehicles used for business such as trucks, buses and taxis. It can also be expanded as an IoT platform for bundling and managing various sensors in the factory.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
51	TAIYO CORPORATION	<b>NEW</b> Wearable Surgical Lighting System	Healthcare	R3-016	OPELAI revolutionized the concept of surgical light by integrating both brightness of OR ceiling light and mobility of headlight with consideration for safety and comfort of surgeons, not only for use at typical operating rooms, but also in ICU, emergency vehicles, field hospital tents, etc. Our mission is to provide sufficient light for safer surgery everywhere.	
52	SANYOSEIKO CO., LTD.	Pain&Sensor y Evaluation System	Healthcare	R3-009	PainVision quantifies the magnitude of pain in a safe, painless, and quick by measuring the same electrical stimulus (Pain Equivalent Current) as the pain felt by the patients. Pain management, adequate diagnosis, and effective treatment planning can be facilitated by providing an objective numerical value for pain.	
53	COSMOTEC CO.,LTD	Wearable Memo	Healthcare	R3-013	The "wemo" series is designed to keep professionals in-the-know while they are on-the-go at work. It is easy to use: simply place the "wemo" on your arm. It reduces the pressure or stress to memorize. With our special coating on the silicon material, you can write and erase as many times as you like. It is useful in a variety of situations, including medical, emergency, production lines, and logistics, cooking, shopping	 Wrap around, Write down and Erase as many times as you like
54	OSHIMA MEDICAL INDUSTRIES CO., LTD	Dry Hot Pack device "HOT BIO"	Healthcare	R3-004	We developed a new dry hot pack device "HOT BIO." It's three-layer electrodes have built-in vibration devices and coil sheets in addition to a heating element. With these functions, HOT BIO gives comfortable vibrato (vibration) stimulus and thermal sustaining to patients.HOT BIO will improve the therapeutic effect and patient satisfaction.	
55	OPTIMA Inc.	Hydrogen Peroxide Vapor Bio-decontamination System PASSTECH R series	Healthcare	R2-071	The PASSTECH® series is the vaporized hydrogen peroxide decontamination system for the purpose of decontaminating the working environment of cleanroom facilities. The system performs 99.9999% decontamination safely and quickly, injecting high concentration hydrogen peroxide vapor carried by dry air into target space.	
56	Hinatawada Seimitsu MFG. Co.,Ltd.	Dental Diamond Bur MARY DIA	Healthcare	R2-022	MARY DIA produced by HINATAWADA is the diamond bur for dental that has excellent strength and extremely high rotational accuracy, achieved by the unique heat processing grinding technology. As its excellent quality enable to make extra smooth tooth surface, MARY DIA is highly appreciated among dentists and odontologists widely in Japan.	
57	Kobayashi Create Co.,Ltd.	Automatic blood collection tube labeler	Healthcare	R2-038	The device picks up tubes and prints labels automatically according to orders from HIS/LIS, etc. Therefore, it reduces human/medical errors. - Preventing errors when selecting tubes - Reducing labeling jobs - Preventing the prepared tubes from mixing with others by automatic sorting	
58	UBIX Corporation	Patient Monitor for MRI rooms DENALI 6168 μ EtCO <sub>2</sub> model	Healthcare	R2-065	DENALI 6168 μ is a patient monitor made in Japan that can be used to check vital signs safely and easily during MRI examination. This new model monitor can measure EtCO <sub>2</sub> : End-tidal Carbon Dioxide partial pressure, in addition to conventional main three items (SpO <sub>2</sub> : Arterial Oxygen Saturation, NIBP : Noninvasive Blood Pressure measurement and Pulse : Heart Rate). Therefore, DENALI 6168 μ can detect immediately sudden change such as respiratory arrest of the patient. This equipment is ideal for monitoring anesthetized children at MRI scanning who cannot stay still during the examination.	
59	de-zion Inc.	Hybrid Photocatalyst CELSION	Healthcare	R2-036	CELSION is a photocatalytic antimicrobial coating solution using newly developed photocatalytic technology,brought from a thermocatalyst composite to cover the weakness of photocatalyst while maintaining its advantages.	
60	J-Chemical Corporation	Impermeable body bag "Ceremo Bag"	Healthcare	R2-062	Ceremo bag is an impermeable bag produced using a patented functional three-layered film which prevents viral infection by sealing in the infectious substances, including viruses, liquids, blood. It consists of the permeable inner bag and the outer bag, which is equipped with 8 handles. As it can safely contain a body, even one suspected of infection, the bereaved family is able to see their loved one off without infection risk.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
61	CenturyArks Co., Ltd.	KiralyArt Mask Filter, KiralyArt Air-conditioner filter	Healthcare	R2-043	KiralyArt is a series of products using filters being coated by Etak®, antimicrobial and bactericidal agents whose effect is recognized by Kitasato University Medical Center. Attaching KiralyArt Mask Filter to a mask enables to improve the antibacterial and antiviral effects, and fitting KiralyArt Air conditioner filter to the inlet of air-conditioner can provide clean air by the excellent antimicrobial functions.	
62	Sokenmedical Co.,Ltd.	Winnerlights	Healthcare	R2-039	Winnerlights is an innovative perception training system to provide effective training methods to improve the perception and decision-making skills required for various kinds of sports. Winnerlights provide various training programs by changing colors of bibs or goal using devices like smartphone, enabling the latest trainings based on the AI analysis.	
63	Shimura Precision Co., Ltd.	Metal working parts for medical devices	Healthcare	R2-023	Shimura Precision supplies precision parts for medical devices such as endoscope, laparoscope and infusion pumps. With the advanced technical capability and cutting-edge precision machineries, such as CNC machines or 3D measuring machines, Shimura Precision is able to stably supply complicated shaped parts.	
64	Inami & Co., Ltd.	M. Q. A. Stick Stout	Healthcare	31-079	M.Q.A. is the representative ophthalmic sponge to be used for eye surgery. Using this sponge in the ophthalmic surgery helps a doctor to secure the surgical field by immediately absorbing the body fluid or water. Without using surgical tweezers, this sponge is available swiftly after opening.	
65	KYOTO KAGAKU CO., LTD	Simulators for Medical and Nursing Care Training	Healthcare	R2-001	As the top share in Japan, our human body simulators for medical training imparting various characteristics with realistic tactile sensations including puncture sensation, ultrasonic image, and anatomical structure, enable for medical professionals and trainees to practically train their skills.	
66	HOMER ION Laboratory Co., Ltd.	G-TES. General Therapeutic Electrical Stimulator	Healthcare	R2-003	G-TES, manufactured in Japan, can provide exercise substitutes such as muscle training and aerobic exercise for patients who have difficulty exercising. The products are installed in many fields such as orthopedics, rehabilitation, dialysis, ICU, or nursing care. - Applicable to the whole lower limbs - Easy to use, enabling every operator to provide the same quality	
67	FUJI FLEX Co., Ltd.	Medical cart Medion II	Healthcare	R2-021	Medion II is a medical cart for endoscope being manufactured in-house at our own factory, available to install in a small space and widely used in hospitals over Japan. You can monitor the endoscope images on the display monitor equipped with the movable arm of the top of the cart. Medion II with various accessories is flexibly adapt to various situations as you need.	
68	Fujidenolo Co. Ltd.	MAGGUARD Ferromagnetic Material Detector for MRI Safety	Healthcare	R2-002	MAGGUARD is a ferromagnetic material detector equipped with high-sensitive MI sensors enabling to detect a disturbance of the magnetic field. It can prevent from projectile effect or data loss caused by unintentionally taking ferromagnetic objects into the MRI room.	
69	FUJITA MEDICAL INSTRUMENTS Co., Ltd.	Automatic electronic blood pressure monitor (VIMMS VM-BP)	Healthcare	R2-037	VIMMS VM-BP is a lightweight and compact portable medical equipment that can easily measure blood pressure in upper arm, and can be used for remote monitoring. This system enables health care professionals to obtain essential vital sign - blood pressure in real-time and thus can provide appropriate instructions/prescription immediately.	
70	KOIKE MEDICAL CO., LTD.	The revolution in health care delivery via Telemonitoring	Healthcare	31-096	A suction device that aspirates waste liquid by using the suction/gas pressure. Used to vacuum patient's saliva, secretion or body fluid at hospital. 【Usage】 - Tracheal aspiration (mainly ICU, general ward) - Large-volume suction of blood, body fluids, and washing fluids(mainly operating rooms and endoscope rooms)	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
71	Hanamisui Co., Ltd.	inclear	Healthcare	31-080	Disposable feminine cleanser of syringe type. <ul style="list-style-type: none"> <li>• An ergonomic container (syringe-type applicator) can be inserted into the vaginal without difficulty.</li> <li>• The container (syringe-type applicator) has a safety design so that pins do not remain in the vagina due to misuse.</li> <li>• Wash the inside of the vagina with only 1.7g of gel</li> <li>• Compared to water washing with a general bidet, the burden on the vagina is less and it can be used on a bed or in a toilet.</li> </ul>	
72	Nihon Form Service Co., Ltd.	Qrane Arm	Healthcare	31-082	Able to adjust the display to your best-fit position easily. Display with the maximum weight of 20kg can be installed in a variety of mounting variations. Medical related field, factory facility, monitoring facility where safety and reliable operability are required. "Qrane Arm" can be installed not only on the table but also on the wall or pole.	
73	Nihon Form Service Co., Ltd.	MIRRAD	Healthcare	31-081	MIRRAD, the very new type of digital signage with two functions: "Mirror" and "Display" . MIRRAD provides a natural, mirror-like appearance that conceals a digital display when the screen is off. But it will allow the image on the display to emerge when the screen is on.	
74	MIYASAKA KORYO Co., Ltd.	Fragrance	Healthcare	31-067	Fragrance made in Japan with the seasonal fruit & flowers kind. We are offering series of fine Japanese unique fragrance. Rich fragrance of citron, gardenia, cherry blossom and matcha etc. to be used in a detergent and miscellaneous goods.	
75	MIYASAKA KORYO Co., Ltd.	Flavor	Healthcare	31-066	Fulfilling a real food flavor with high analysis. Tasting up with a variety of masking flavor. Offering full lines of Japanese unique food flavor. It is popular with beverages, confectioneries and dairy products giving a real flavor of the fruit kind such as citron, apple, grape and strawberry and is used as masking flavor for deodorizing effect for basic odor.	
76	Dr.Japan Co., Ltd.	Dr.B-Go (Radiation protective glasses for healthcare provisers)	Healthcare	31-050	Radiation protective glasses for healthcare providers. During medical radiation diagnosis and treatment, doctors and other health care workers are exposed to scattered radiation, and there is a risk of cataracts in the eyes. By wearing Dr. B-Go, it protects your eyes from medical radiation and minimize the risk of cataracts.	
77	ALP Co., Ltd.	Retort Sterilizer RK/RKZ-Series	Healthcare	31-025	These devices can sterilize packaged foods with Aluminum pouch, Can, Bottle as they are. <Advantages> - RK/RKZ series can sterilize packaged foods by controlling both temperature and pressure, it prevents breakage of the package. - RK-series equip Pre-heating and F-value control ssystem (option) that prevent food degenerates by overheating. - RK-3030 model can provide HTST (high-temp. and short-time) that is effective food sterilizing method.	
78	Neustadt Japan Co. Ltd.	High-speed piston-motion endo contra	Healthcare	31-024	This product is the world's first root canal contra, which penetrates, enlarges and removes by vertical movement. <Advantages> - It is much safer than conventional products because there is no twisting of the file attached to the contra due to vertical movement and there is lesser risk of breakage. - Treatment time is significantly reduced thanks to strong penetration power generated by high speed amplitude of 5000 times per minute.	
79	MATSUNAGA MANUFACTORY CO., LTD.	Wheelchair	Healthcare	30-128	Wheelchairs for health facilities, disabilities, sports competitions, security-metal detector, airport, travel, and small children to elderly people. We focus on usability of medical/care givers and independence of users to enjoy rest of life. With the combination of rehabilitation, we try to provide the users care supports totally. Moreover, it will connect to the reduction of activities of care givers.	
80	DAICHI MEDICAL CO., LTD.	LED headlight EFLH300	Healthcare	31-001	Medical device with wearing on doctor's head and lighting field of view directly to observe inside cavity of affected area (ear, nose and throat) by LED. <Advantages> 1. Unique flip-flop light realizes ON/OFF operation. 2. Lightweight design which reduces a burden by prolonged practice. 3. Bright field of view is secured by built-in LED light source. 4. Both ordinary AA battery and rechargeable battery are available.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
81	ERECTA International Corporation	Hot Meal Service Cart "fuu"	Healthcare	30-120	Meal delivery cart for hospital, nursing home, or other elderly facilities. Our cart has heater panels and good insulation materials, so it keep hot meals during delivering. Sites which delivering food from kitchen to other place such as hospital, nursing home,restaurant, school, or others.	
82	LUNDAL CORPORATION	Cardio μ 70/80	Healthcare	30-108	Echocardiography examination table to obtain clearer picture of heart apex of patients for laboratory technicians when they conduct echocardiography examination. Patented "Electric probe pocket" and "butterfly function" support both laboratory technicians and patients for clearer picture.	
83	C.H.C.SYSTEM CO.,LTD.	CO2 monitor	Infrastructure	R3-018	Using a high-precision optical NDIR* dual beam sensor, Marvel detects and visualizes CO2 concentration, which serves as a rough indicator of ventilation. The Marvel series meets "the Guidelines for selecting carbon dioxide concentration measuring instruments" issued by the Japanese Ministry of Economy, Trade and Industry.	
84	TECH CORPORATION	Ultra Fine Bubble Generator "Fine AQUA"	Infrastructure	R3-007	Fine AQUA is a device that generates very fine bubbles "Ultra Fine Bubbles" in liquid. Ordinary bubbles rise to the surface and are released immediately after generation, but fine bubbles can remain in water for a long time, making it possible to create solutions with high levels of dissolved oxygen. In addition, fine bubbles with a diameter of only one billionth of a meter can penetrate into microscopic gaps, adsorb dirt and odors, and remove them.	
85	TECH CORPORATION	Environmental Hygiene System by Electrolyzed Water "Mamoromizu"	Infrastructure	R3-008	The disinfecting power of acidic electrolyzed water comes from an ingredient called hypochlorous acid (HClO). Hypochlorous acid has the function of penetrating the cell membrane of bacteria and destroying them. When the negative ions contained in alkaline electrolyzed water adsorb dirt, they exfoliate the dirt, bring it up to the surface, decompose and separate it into small pieces. This is the mechanism behind the high cleaning power without the use of surfactants.	
86	Sibata Scientific Technology Ltd.	Minipump MP-W5P	Infrastructure	R2-074	The Minipump MP-W5P is a portable air sampling pump equipped with functionality for measuring accumulated flowrates and constant flowrates. Small and lightweight design is suitable for an individual working person to fix it to the body. A wide range of applications such as personal exposure measurements and air samplings in working, indoor and atmospheric environments are corresponded. Reliable Japanese product with CE mark.	
87	Sibata Scientific Technology Ltd.	Mask Fitting Tester MT-05U	Infrastructure	R2-075	Mask Fitting Tester MT-05U is the measuring instrument that counts the number of dust particles outside and inside the mask, and displays the dust entering rate (leakage rate %) into inside the mask. MT-05U is fully effective to protect healthcare workers from air infection and droplet infection, and to protect field workers from the harmful dust.	
88	DD Machine Corporation	Refrigerant Agitator α-HT 1000	Infrastructure	31-018	α-HT is an efficiency device that is installed in the refrigerant circulation pipe (liquid pipe side). This is a patented product in Japan that promotes refrigerant circulation and increases efficiency to save electricity and energy significantly. α-HT agitates the refrigerant and the lubricant to improve the circulation of the refrigerant, resulting in stable operation and increased efficiency, thereby saving electricity. It also reduces the burden on air conditioning equipment.	
89	EXEN Corporation	Air Knocker RKV/RKD/RKVS series	Infrastructure	R2-061	Air Knocker is a machine to eliminate problems of blockage and adhesion of powder in storage facilities, such as hoppers, silos or chutes. This device can vigorously hit the wall surface of facilities by using compressed air and give an impact like hammering to prevent the contents from sticking, and is widely available from powder to granules such as cement, wheat, toner or pellets.	
90	ADVANCED SYSTEM CO. Ltd.	Asclone Shooter	Infrastructure	R2-055	Asclone Shooter is a device working in conjunction with the press machine to automatically air-convey scraps generated during the press-punching process to a designated location. Automatizing the collection and conveyance works, Asclone Shooter saves manpower at press factories in the manufacturing industry.

91	SEKONIC CORPORATION	Optical Mark Reader (OMR)	Infrastructure	R2-020	Machine for grading examination speedy, automatically, and accurately. In educational field mainly, OMR is used for reducing teacher's total workload of examination, and grading huge scale examination speedy and efficiently. - Recognition accuracy of our OMR is 99.99%, so risk of mis-grading is lower than others. - Various analysis reports generated automatically by software can help teacher to improve quality of lesson.	
92	Tsukuba Technology Co., Ltd.	Compact X-ray Generator "TXR-C1R180P-01"	Infrastructure	31-097	No preheating necessary, low power consumption and high-dose X-ray output. Cold-cathode X-ray tube having carbon nanostructures makes lightweight and compact design which allows on-site X-ray inspections at both high and narrow area.	
93	MIRACOO CO.,LTD.	MIRACOO	Infrastructure	31-094	Just coat it and save energy. MIRACOO effectively reflects sunlight by the synergistic effect of the ceramic micro spheres and the special pigment. Improving efficiency and life of surface material by reducing air-conditioning load up to 40%.	
94	KL PLANT CO.,LTD.	OIL BACTER SYSTEM	Infrastructure	31-047	"An innovative wastewater treatment method to replace the activated sludge method." - The OIL BACTER SYSTEM is an oil-containing wastewater treatment system that does not generate excess sludge in consideration of the global environment. - Used mainly by food manufacturers for wastewater treatment.	
95	KINKEI SYSTEM CORPORATION	Surge Type Fault Locator System (SFL-2000 with DI)	Infrastructure	31-038	Although the transmission grid runs a few hundred km, SFL-2000 can locate the fault point with an accuracy of ±200m. <Advantages> - Precise determination of fault point are enable to reduce time to find fault point and fast to recover the fault. - Easy to install. - Apply single end fault detection with Digital Input signal.	
96	Intex Corporation	Insect Trap	Infrastructure	31-035	"Indirect lighting type LED insect trap" LED of specially coordinated wavelength which attracts insects the most improves performance of the insect trap. LED lamps can last 4 years, consequently maintenance jobs are reduced tremendously. Conventional light source of fluorescent lamp is scheduled to finish production in 2020 and LED is gradually taking over now.	
97	Vasta Giken Limited Company	Thunder Meter TM-5E, Lightning alarm	Infrastructure	31-034	It predicts lightning approaching within 40 kilometers 10 to 15 minutes prior to actual strike to issue warning. It consists of outdoor antenna and indoor main unit to give alarm with light and sound. It also can be connected to rotary beacon or PA system. Administrater of golf club, sports ground and others can protect players without depending on their experience or intuition.	
98	TAKUWA CORPORATION	Gate Opening Indicator	Infrastructure	31-045	Gate Opening Indicators attached to sluices of dams and rivers in flood monitoring systems and water resource management systems. <Advantages> - The gate level can be measured by 1cm. - Accurate gate operation is possible, contributing to effective use of water and prevention of disasters. - Abundant lineup and various options for various gate structures.	
99	TAKUWA CORPORATION	Quartz-type Water Level Gauge (QS Series)	Infrastructure	31-044	Quartz-type water level gauge capable of long-term stable measurement with high accuracy. <Advantages> - Knowing the exact water level of dams and rivers enables flood prediction and accurate evacuation instructions for protecting human life and property from disasters. - The world's most accurate measurement is possible. With highest accuracy 0.01% F.S (Full Scale)	
100	Kendensha Co., Ltd.	Clean saver	Infrastructure	31-030	The Clean Saver is a separation and dehydration system designed to utilize a separable floc, created by mixing a flocculent into a liquid which contains fine particles that could not be removed by traditional screens or the KDS Separator. <Advantages> - No clogs. Reverse cleaning unnecessary. - Simple and compact design - Easy operation, Easy maintenance, Saving energy
