Tokyo Metropolitan SME Support Center supports the overseas sales promotion of this product.  
Tokyo Metropolitan SME Support Center is founded by Tokyo Metropolitan Government to assist SME in Tokyo.

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
1	TOYO AUTOMATION Co., Ltd.	Emergency shutoff system for water tanks	NEW Manufacturing	R4-008	This system immediately closes the shutoff valve when its seismic sensor detects earthquake motion. In the event of an earthquake, water tank will maintain a specific volume of water on hand. However, it may experience unexpectedly flowing water as a result of pipe damages. Installing the system prevents the water flow.	
2	Monokoto Design Inc.	Smart lock focusing on easy key sharing	NEW Manufacturing	R4-011	This smart lock, which focuses on key sharing functionality, is simple to operate and reasonably priced. Key management in businesses is simplified by this product. Physical presence to drop off or pick up keys, key duplication, and the possibility of keys being lost are all eliminated by this smartphone app-based access. It is simple to attach the smart lock over an existing deadbolt, eliminating the need for construction of changing locks.	
3	Qoncept, Inc.	All-in-one smartphone app for golf practice	NEW Manufacturing	R4-007	"Golfboy" is a golf app that enables amateur players to access highly accurate, real-time data analyses on their smartphones, making practice more fun and effective for them. Just for \$10/month, Golfboy provides various useful information, including shot distance, ball and club speeds, and launch angle, as well as putting and swing form analyses from a single camera image.	
4	HERUTU ELECTRONICS CORPORATION	Pokayoke Tools	Manufacturing	R4-009	Pokayoke Tools is a group of IoT tools designed to prevent operator mistakes, such as forgetting to tighten screws or stamp, in production processes that require high quality, such as assembly processes. By combining compatible tools with our Pokayoke wireless devices (transmitter/receiver), you can use them as Pokayoke Tools. It provides reliable and steady inside wireless network coverage for 30 to 50 meters.	
5	TripodWorks CO.,LTD	MaaS Solution trimobi	Manufacturing	R4-004	trimobi is a cloud-based IoT platform to provide the services that improve daily operation efficiency by analyzing vehicle-related data collected from various sensors installed on vehicles. This results in Safe Enhancement, Work-style Reform, and Low Operating Costs. Personalized to optimize for customers' needs and requirements. Personalized to best meet the demands and specifications of the customer.	
6	Tokyo Byora Koki Co., Ltd.	High Precision Machinery Jigs and Dies made of Tungsten Carbide	Manufacturing	R4-005	Jigs and dies require frequent replacement because transfer machines that produce large volumes of small-precision parts at high speeds wear them out. But because of the exceptional wear resistance of our jigs and dies, the machines can continue to make components effectively for a very long time without needing to replace them. We are professional, especially for Micro Hole and Deep Hole Processing and Super Precision Processing.	
7	PIEZO PARTS Co.,Ltd	Corrosive Gas Monitoring System S-QTMS	Manufacturing	R4-002	S-QTMS simultaneously measures two channels of corrosive gases, humidity, and temperature. Additionally, the S-QTMS makes it possible to measure even trace gases thanks to QCM sensors. It is easy to use and install S-QTMS because it doesn't need PCs or any dedicated equipment for the measurement, and it works with an AC adapter or also 4 AA batteries.	
8	TAKASAGO CO.,LTD	HACCP Compliant Cleaning brushes	Manufacturing	R3-024	Color-coded cleaning tools prevent cross-contamination, and metal-detectable bristles reduce the risk of foreign body contamination. With such capabilities, as well as high durability and efficiency, our cleaning brushes help you meet HACCP criteria in your food processing business.	
9	SUNARROW LIMITED	Various composite parts	Manufacturing	R2-046	①To provide a parts with high-functionality (e.g. prevention of interference on radio and light) by integrating multiple different materials such as rubber, metal, fiber sheet, etc. ②To realize weight-saving and prevention of forgetting attachment by integrating multiple materials with different characteristics ③To realize the parts appearance of 3D decoration,high quality, high functionality, and high durability by integrating multiple materials	
10	Konno Corporation	Lifting Jack Model: LJ-150	Manufacturing	R3-011	LJ-150 is an integral hydraulic wedge that allows for vertical lifting or lowering of heavy items through the just 9.5mm access gap. The two safety blocks hold the object being lifted in place while changing jacks, ensuring that the operation is safe. As compared to other jacks with the similar performance, the LJ-150 is exceptionally light, weighing just 10 kg, making operations easier and requiring less workload.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
11	TDI ELECTRONICS CO., LTD.	Capacitive Sensor & Switch	Manufacturing	R3-010	We produce PET film capacitive sensors with conductive ink-printed circuit. The capacitive sensor, which measures the capacitance change between fingers and itself, is used to form touch sensors and non-contact sensors.	
12	INNOPHYS CO., LTD.	MUSCLE SUIT Every	Manufacturing	R3-012	Muscle suit "Every" is a wearing assist suit to help lightening the load on your back from work and daily labor-intensive activities. With artificial muscle operated by air pressure, "Every" helps to reduce the load at supporting people, carrying heavy items and standing in a half-sitting position, and contributes to improving the work environment and manpower shortage.	
13	UCAN Co., Ltd.	centralized air conditioning system	Manufacturing	R2-080	Ultrasonic humidifiers built into centralized A/C system such as air handling unit, all-in-one A/C system and duct, etc.	
14	Helvetia Inc.	Power Line Communication Module / Device	Manufacturing	R2-077	These products are to construct a data network using existing power lines (AC/DC) or coaxial cables. Using HD-PLC (High Definition Power Line Communication) technology, our products realize "Internet of Things" easily with just connecting sensors or control devices without new wiring, which leads to cost reductions. These are ideal for supporting several systems such as factory automation, flame detection and warning, and other various systems.	
15	HiSOL, INC.	Desktop Flip Chip Bonder M90	Manufacturing	R2-059	Flip chip bonder M90 is a small bonding machine that can be installed on the desktop. With a low-cost investment, customer will be able to achieve high-accuracy bonding in the order of microns. The wiring length can be shortened so that electrical loss can be lowered. Most suitable for fabricating and developing prototypes, and collecting setting data of mass-production equipment.	
16	IGUCHI KIKO CO., LTD.	Cleanroom Ball Transfer	Manufacturing	R2-031	Cleanroom Ball Transfers are applied effectively and extensively in Flat Panel Display and Photovoltaic production lines due to our innovative technology for alignment and positioning of glass substrates. Adopting engineering plastics as material of balls, the Cleanroom Ball Transfers realize to reduce cracks on glass substrates. Our original and unique clean-technology enables to suppress particle generation to the highest cleanliness.	
17	Arc Geo Support Co., Ltd.	Hydrographic and Bathymetric Survey Service	Manufacturing	R2-070	Our team of licensed professionals provides high precision Hydrographic and Bathymetric Surveys using the state-of-the-art technology and our original light weight ASV (Autonomous Survey Vehicle) . This product is to conduct three-dimensional bathymetric survey especially at the shallow area even at 0.5m of water depth. We conduct not only surveys of harbor/coast/dam/river/offshore but also special measurement /underwater structure survey.	
18	Yamato Gokin Co., Ltd.	and ASV Seafloor Topography	Manufacturing	R2-030	Aluminum bronze alloys HRW-1 (High Resistance Wear-1) are special copper alloys having both excellent mechanical properties (tensile strength of over 640MPa, elasticity of over 15%, hardness of over 180HBW (30/1000)) and excellent wear resistance. As a material for sliding parts that require a high load, weight reduction and miniaturization, HRW-1 is the most suitable material for worm gear, bearings, liners, bushes, joints, wipers, etc.	
19	THERMO RIKO CO., LTD.	SR1800G, Ultra-High Temperature RTA System	Manufacturing	31-086	Heating device for creative research of new material. Table top product which infrared generating and sample spot are placed in trestle. It allows to heat super fast silicon carbide, graphene and advanced electronics. This is an improved version from the infrared guide heating device selected as a supporting product last year. It makes temperature rise up to 1800°C.	
20	THERMO RIKO CO., LTD.	Infrared Guide heating system GA298	Manufacturing	31-087	Heating device to raise the temperature of the sample for a very short time by radiating infrared from light focus mechanism. Infrared ray are radiated from the tip of Guide rod for rising temperature of the sample. Attainable temperature 1500°C. Heating area about 20 mm diameter.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
21	HiSOL, INC.	Laser Decap PRO 2	Manufacturing	R2-058	Laser Decap PRO2 is a device for decapsulating semiconductors and electronic components to do the pretreatment for failure analysis, which needs to analyze the inside of the package including IC chips or wire-bonded components. Using the excellent laser of Laser Decap PRO2 to remove the mold resin of the objects for pretreatment enables a high-precision failure analysis without any damage.	
22	Seidensha Electronics Co., Ltd.	New JII-series Ultrasonic Welders	Manufacturing	R2-060	The new JII-series ultrasonic welders cover wide welding needs from small to large workpieces by ease-of-use and consistency of fast and quality welding as well as optional industrial network connectivity. The new JII-series are used in various production scenes from small scaled hand-welding to large scaled automated welding equipment.	
23	Nanodax Co., Ltd	purging pellet for plastic injection machine "ecomaru"	Manufacturing	R2-064	"ecomaru" is the purging pellet for plastic injection machine, dedicated to black dot removal improvement, kneading Glass Wool. It is suitable for high quality molded plastic production. Thanks to Glass Wool which is extra fine and flexible, removes unnecessary substances physically by the glass fibers' edges, suppressing a scratch inside plastic injection machine.	
24	TOYO YOZAI Co., Ltd.	TOYO CLEAN COPPER	Manufacturing	30-132	Antioxidant (inner surface of copper pipe) when brazing copper pipe for refrigerant. Compared to the conventional nitrogen replacement method, it enables a significant cost reduction.	
25	CAST Co., Ltd.	Power Blade fork lift attachment	Manufacturing	R2-014	Power Blade is a fork lift attachment to use your forklift as a bulldozer. It is available just by inserting the blade to a forklift claw fixed with the accessory ratchet belt. The blade being integrally molded by casting has high strength and durability and is made heavy for stability. There are two attachment types, around the 2.5 ton or 5.0 ton class, and the replacement blade is also available. So Power Blade is user friendly and economical, optimizing your workplace.	
26	Matex Co., Ltd.	LGH35 Gearhead Series	Manufacturing	R2-016	Matex, celebrating its 100th anniversary in 2020, has started producing a gearhead series by combining the long-trusted Matex planetary gear units and a simple gear case. Installing the gearhead series including our advanced manufacturing technology, you can not only reduce size and cost, but also efficiently improve the design process.	
27	Tokushu Abe Seihanjo Co. Ltd.	Tagless Pad Printing Materials	Manufacturing	R2-044	Product is a tagless pad printing materials (printing plate, silicone pads and other consumables). In place of a tag used in clothing (apparel), brand logo, material display, laundry symbol can be printed directly onto textile fabric by pad printing. Uncomfortable and discomfort feelings using a tag can be eliminated. Pad printing is one of offset printing process that 2D image on plate can be transferred onto 3D material.	
28	Hino Engineering, Inc.	Camera module MultiFlex-CAM-1080E	Manufacturing	R2-057	MultiFlex-CAM is a MIPI output mode camera module supporting the CPU board's input. It can be directly embedded in the CPU board of image processing system and utilized for various devices including face recognition, image inspection or crime prevention. Full high-definition MultiFlex-CAM has high resolution of 2 million pixels. And it is very compact in size with excellent cost performance.	
29	TSP Co., Ltd.	VIPORE (Visual Power Report)	Manufacturing	R2-045	VIPORE is the system enabling to display statistical data and graph data such as the number of people and the attributes (gender or age) as well as queues lining up in the stores or public facilities by totalizing and analyzing video information shot by AXIS camera on our cloud computing technology. You can reasonably utilize information efficiently provided by VIPORE as marketing reports or solutions for enhancing sales and revitalizing stores.	
30	SYSTEM BRAIN CORPORATION	NANO MAINTENANCE SB-101	Manufacturing	R2-029	SB-101 is a new generation sanitizer deodorant developed by our unique water ionization technology that decomposes water molecules into nano-scale particles, allowing to dissolve sodium hypochlorite in pure water. Without the chlorine odor, it maintains the bactericidal effects, even for the viruses which can't be removed by alcohol, and enables the long-term preservation. SB-101 is also harmless to the human body and prevents chapped hands.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
31	FUTA-Q, Ltd.	Bore polished special alloy nozzle	Manufacturing	R2-028	FUTA-Q nozzle and needle, instruments for inhaling and dispensing liquid/gas samples, are made of special alloy widely used for analysis device in various fields of medical, life science, environmental, and other industries in general. The nozzle and needle can apply to a small diameter pipe under 6 mm in outside diameter.	
32	HEIWA TECHNICA CO., LTD.	FiNE CUT H S Series	Manufacturing	R2-019	FiNE CUT series are high-speed precision cutting machines enabling to cut out sample pieces for hardness measurement, metal structure observation and welding parts observation in the QC/QA or R&D field. FiNE CUT series can realize a precision cutting at any position by the XYZ movement as well as performing a repeat cutting by the X-axis movement or automatic feeding mechanism.	
33	Nihon Seikoh Giken Co.,Ltd.	Time Prism 2019	Manufacturing	R2-005	A Japanese Kaizen software tool that uses video footage in the analysis and improvement of process. In various industries, widely used as a support tool of work improvement and education.	
34	ACE International Trade Co., Ltd.	EXLUB®	Manufacturing	R2-007	<ul style="list-style-type: none"> <li>•Japanese ultra-extreme pressure lubricants enabling to maintain a dramatic lubricating effect for a long time.</li> <li>•The excellent lubricating effect achieved not only the oil components, but also by the film made with our unique technology forming on a metal surface.</li> <li>•Environment friendly lubricants with chlorine-free.</li> <li>•Conforming to RoHS Directive.</li> </ul>	
35	Advan co., ltd.	Multi point Heater MPH1500	Manufacturing	31-085	This product preheats only the THT parts that need to be soldered. As a consequence, SMT components are subjected to only one-time thermal stress during reflow process.	
36	Daian Service, Inc.	AIR QUEST Green	Manufacturing	31-074	An air conditioner filter that uses materials extracted from thinned timber of Fir Pine, Hokkaido. <ul style="list-style-type: none"> <li>- Just stick "Green Quest" on the air-conditioner intake to reproduce the air purification system in the forest.</li> <li>- Possible to apply to the most types of the air conditioners. Ceiling embedded type, ceiling hanging type, wall hanging type, etc.</li> </ul>	
37	SI Synergy Technology Co., Ltd.	AI-NETWORK TERMINAL (IT8000-2420)	Manufacturing	31-058	This device, which has developed a learned neural network, enables stand-alone operation in the field and enables real-time AI / IoT artificial intelligence field operation. By learning, analyzing and inferring various sensor information at production sites such as factories, <ol style="list-style-type: none"> <li>1) Optimal control is possible according to the production line conditions.</li> <li>2) Failure prediction and predictive maintenance are possible.</li> </ol>	
38	KOMINE Co. Ltd.	Kern stütze(core support), Vent Hole, Brush	Manufacturing	31-057	<ul style="list-style-type: none"> <li>•Kern stütze(core support): Fixing the casting core in the main mold when casting iron or non-ferrous metals.</li> <li>•Vent Hole: Attached to the mold, removing gas and air from the mold.</li> <li>•Brush: Paint mold and apply mold release agents.</li> </ul> <p>Our own original super vent wave type is effective in reducing cleaning time and frequency.</p>	
39	Kanesuzu Precision Co.,Ltd.	Torque Device Binder	Manufacturing	31-039	It is mainly used to hold a guide wire that surgeons perform PTCA (Percutaneous Transluminal Coronary Angioplasty). It is usually built in a resin cap called a torque device. It is delivered to guide wire manufacturing companies as a guide wire accessory.	
40	Jorudan Co., Ltd.	「HAZARD Buster」 「Mobile OA」	Manufacturing	31-041	Reports from employees and workers in wide area are collected instantly and smoothly. Employees' safety can also be confirmed at all times. <p>&lt;Advantages&gt;</p> <ol style="list-style-type: none"> <li>(1) Realize centralized management, aggregation and analysis.</li> <li>(2) Reports from many sites are collected and centralized in the cloud.</li> <li>(3) Confirming the safety of employees and workers</li> <li>(4) Flexible customization to meet customer needs</li> </ol>	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
41	KAMUI CO.,LTD.	LC TYPE OILCOOLER	Manufacturing	31-021	"Oil cooler for cooling hydraulic oil / lubricant in hydraulic machine" <Advantages> - By using a heat exchanger to maintain the temperature of the hydraulic fluid properly, it is possible to prevent the hydraulic fluid from deteriorating, maintain the efficiency of the hydraulic system, and extend the life of the system. - As a manufacturer of hydraulic oil coolers, we have the highest level of recognition overseas. Our products are highly reliable and most widely used by major companies and electric power	
42	TAKETOMO ELECTRIC INCORPORATED	TENSIPRESSER MyBoy2 SYSTEM	Manufacturing	31-028	By reproducing human chewing motion for measurement, "TENSIPRESSER My Boy2 SYSTEM" quantifies the properties of texture as numerical data. <User Example> (1)Researcher of Food Manufacturer: Analyzing chewing feel of hardness, viscosity, etc. for development of new products (2)QC of food production line: Check numerical data of food texture for quality control	
43	CIMTOPS CORPORATION	ConMas i-Reporter	Manufacturing	30-130	Current daily-use paper report in Excel turns digital report while remaining merit of paper form. Old paper form workflow that we couldn't change until now is finally possible to digitalize and improve work efficiency and speed.	
44	MARUHIDE KOKI CO.,LTD.	Pipe profile cutting machine 「Pipe coaster MA series」	Manufacturing	30-123	Pipe Coaster is Ideal Pipe profile cutting machine which can cover many processing method(cutting ,marking and modeling) and cover many industrial applications include Pressure vessel, offshore jackets, shipbuilding, steel construction, process and crane building industries. The following pipe structures are recognized in the world made of pipes processed by pipe coasters; Bangkok International airports (Thai), Kaula Lumpur (Malaysia), Incheon International Airport (Korea) and Tokyo Sky Tree (Tokyo).	
45	Uniflows Co., Ltd.	High-Performance Liquid Chromatograph e-HPLC "Kotori"	Healthcare	R2-081	<ul style="list-style-type: none"> <li>•Space saving and light weight</li> <li>•Complete an analysis in only 4 minutes after power-on</li> <li>•Analyses with e-HPLC "Kotori" are possible in various fields including educational use in high schools</li> <li>•HPCL reasonably priced under 10,000 USD</li> <li>•A detector can be selected according to the purpose of analysis</li> </ul>	
46	TAIYO CORPORATION	Wearable Surgical Lighting System	Healthcare	R3-016	OPELAll revolutionized the concept of surgical light by integrating both brightness of OR ceiling light and mobility of headlight with consideration for safety and comfort of surgeons, not only for use at typical operating rooms, but also in ICU, emergency vehicles, field hospital tents, etc. Our mission is to provide sufficient light for safer surgery everywhere.	
47	SANYOSEIKO CO., LTD.	Pain&Sensor y Evaluation System	Healthcare	R3-009	PainVision quantifies the magnitude of pain in a safe, painless, and quick by measuring the same electrical stimulus (Pain Equivalent Current) as the pain felt by the patients. Pain management, adequate diagnosis, and effective treatment planning can be facilitated by providing an objective numerical value for pain.	
48	COSMOTEC CO.,LTD	Wearable Memo	Healthcare	R3-013	The "wemo" series is designed to keep professionals in-the-know while they are on-the-go at work. It is easy to use: simply place the "wemo" on your arm. It reduces the pressure or stress to memorize. With our special coating on the silicon material, you can write and erase as many times as you like. It is useful in a variety of situations, including medical, emergency, production lines, and logistics, cooking, shopping	 Wrap around, Write down and Erase as many times as you like
49	OSHIMA MEDICAL INDUSTRIES CO., LTD	Dry Hot Pack device "HOT BIO"	Healthcare	R3-004	We developed a new dry hot pack device "HOT BIO." It's three-layer electrodes have built-in vibration devices and coil sheets in addition to a heating element. With these functions, HOT BIO gives comfortable vibrato (vibration) stimulus and thermal sustaining to patients.HOT BIO will improve the therapeutic effect and patient satisfaction.	
50	OPTIMA Inc.	Hydrogen Peroxide Vapor Bio-decontamination System PASSTECH R series	Healthcare	R2-071	The PASSTECH® series is the vaporized hydrogen peroxide decontamination system for the purpose of decontaminating the working environment of cleanroom facilities. The system performs 99.9999% decontamination safely and quickly, injecting high concentration hydrogen peroxide vapor carried by dry air into target space.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
51	Hinatawada Seimitsu MFG. Co.,Ltd.	Dental Diamond Bur MARY DIA	Healthcare	R2-022	MARY DIA produced by HINATAWADA is the diamond bur for dental that has excellent strength and extremely high rotational accuracy, achieved by the unique heat processing grinding technology. As its excellent quality enable to make extra smooth tooth surface, MARY DIA is highly appreciated among dentists and odontologists widely in Japan.	
52	Kobayashi Create Co.,Ltd.	Automatic blood collection tube labeler	Healthcare	R2-038	The device picks up tubes and prints labels automatically according to orders from HIS/LIS, etc. Therefore, it reduces human/medical errors. - Preventing errors when selecting tubes - Reducing labeling jobs - Preventing the prepared tubes from mixing with others by automatic sorting	
53	UBIX Corporation	Patient Monitor for MRI rooms DENALI 6168 μ EtCO <sub>2</sub> model	Healthcare	R2-065	DENALI 6168 μ is a patient monitor made in Japan that can be used to check vital signs safely and easily during MRI examination. This new model monitor can measure EtCO <sub>2</sub> : End-tidal Carbon Dioxide partial pressure, in addition to conventional main three items (SpO <sub>2</sub> : Arterial Oxygen Saturation, NIBP : Noninvasive Blood Pressure measurement and Pulse : Heart Rate). Therefore, DENALI 6168 μ can detect immediately sudden change such as respiratory arrest of the patient. This equipment is ideal for monitoring anesthetized children at MRI scanning who cannot stay still during the examination.	
54	J-Chemical Corporation	Impermeable body bag "Ceremo Bag"	Healthcare	R2-062	Ceremo bag is an impermeable bag produced using a patented functional three-layered film which prevents viral infection by sealing in the infectious substances, including viruses, liquids, blood. It consists of the permeable inner bag and the outer bag, which is equipped with 8 handles. As it can safely contain a body, even one suspected of infection, the bereaved family is able to see their loved one off without infection risk.	
55	CenturyArks Co., Ltd.	KiralyArt Mask Filter, KiralyArt Air-conditioner filter	Healthcare	R2-043	KiralyArt is a series of products using filters being coated by Etak®, antimicrobial and bactericidal agents whose effect is recognized by Kitasato University Medical Center. Attaching KiralyArt Mask Filter to a mask enables to improve the antibacterial and antiviral effects, and fitting KiralyArt Air conditioner filter to the inlet of air-conditioner can provide clean air by the excellent antimicrobial functions.	
56	Shimura Precision Co., Ltd.	Metal working parts for medical devices	Healthcare	R2-023	Shimura Precision supplies precision parts for medical devices such as endoscope, laparoscope and infusion pumps. With the advanced technical capability and cutting-edge precision machineries, such as CNC machines or 3D measuring machines, Shimura Precision is able to stably supply complicated shaped parts.	
57	KYOTO KAGAKU CO., LTD	Simulators for Medical and Nursing Care Training	Healthcare	R2-001	As the top share in Japan, our human body simulators for medical training imparting various characteristics with realistic tactile sensations including puncture sensation, ultrasonic image, and anatomical structure, enable for medical professionals and trainees to practically train their skills.	
58	HOMER ION Laboratory Co., Ltd.	G-TES. General Therapeutic Electrical Stimulator	Healthcare	R2-003	G-TES, manufactured in Japan, can provide exercise substitutes such as muscle training and aerobic exercise for patients who have difficulty exercising. The products are installed in many fields such as orthopedics, rehabilitation, dialysis, ICU, or nursing care. - Applicable to the whole lower limbs - Easy to use, enabling every operator to provide the same quality	
59	Fujidenolo Co. Ltd.	MAGGUARD Ferromagnetic Material Detector for MRI Safety	Healthcare	R2-002	MAGGUARD is a ferromagnetic material detector equipped with high-sensitive MI sensors enabling to detect a disturbance of the magnetic field. It can prevent from projectile effect or data loss caused by unintentionally taking ferromagnetic objects into the MRI room.	
60	KOIKE MEDICAL CO., LTD.	The revolution in health care delivery via Telemonitoring	Healthcare	31-096	A suction device that aspirates waste liquid by using the suction/gas pressure. Used to vacuum patient's saliva, secretion or body fluid at hospital. 【Usage】 - Tracheal aspiration (mainly ICU, general ward) - Large-volume suction of blood, body fluids, and washing fluids(mainly operating rooms and endoscope rooms)	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
61	Dr.Japan Co., Ltd.	Dr.B-Go (Radiation protective glasses for healthcare provisers)	Healthcare	31-050	Radiation protective glasses for healthcare providers. During medical radiation diagnosis and treatment, doctors and other health care workers are exposed to scattered radiation, and there is a risk of cataracts in the eyes. By wearing Dr. B-Go, it protects your eyes from medical radiation and minimize the risk of cataracts.	
62	ALP Co., Ltd.	Retort Sterilizer RK/RKZ-Series	Healthcare	31-025	These devices can sterilize packaged foods with Aluminum pouch, Can, Bottle as they are. <Advantages> - RK/RKZ series can sterilize packaged foods by controlling both temperature and pressure, it prevents breakage of the package. - RK-series equip Pre-heating and F-value control sysytem (option) that prevent food degenerates by overheating. - RK-3030 model can provide HTST (high-temp. and short-time) that is effective food sterilizing method.	
63	Neustadt Japan Co. Ltd.	High-speed piston-motion endo contra	Healthcare	31-024	This product is the world's first root canal contra, which penetrates, enlarges and removes by vertical movement. <Advantages> - It is much safer than conventional products because there is no twisting of the file attached to the contra due to vertical movement and there is lesser risk of breakage. - Treatment time is significantly reduced thanks to strong penetration power generated by high speed amplitude of 5000 times per minute.	
64	DAIICHI MEDICAL CO., LTD.	LED headlight EFLH300	Healthcare	31-001	Medical device with wearing on doctor's head and lighting field of view directly to observe inside cavity of affected area (ear, nose and throat) by LED. <Advantages> 1. Unique flip-flop light realizes ON/OFF operation. 2. Lightweight design which reduces a burden by prolonged practice. 3. Bright field of view is secured by built-in LED light source. 4. Both ordinary AA battery and rechargeable battery are available.	
65	ERECTA International Corporation	Hot Meal Service Cart "fuu"	Healthcare	30-120	Meal delivery cart for hospital, nursing home, or other elderly facilities. Our cart has heater panels and good insulation materials, so it keep hot meals during delivering. Sites which delivering food from kitchen to other place such as hospital, nursing home, restaurant, school, or others.	
66	LUNDAL CORPORATION	Cardio μ 70/80	Healthcare	30-108	Echocardiography examination table to obtain clearer picture of heart apex of patients for laboratory technicians when they conduct echocardiography examination. Patented "Electric probe pocket" and "butterfly function" support both laboratory technicians and patients for clearer picture.	
67	Ecosophy Co., Ltd.	Colloidal cleaner for carpet	Infrastructure		This is the carpet cleaner for business use in hotels, commercial facilities, buildings, airports, etc. Widely supported by cleaning companies that demand not only work efficiency (high detergency) but also the safety and security of workers. The detergency is one of the highest levels among the carpet cleaners sold in Japan.	
68	SUNWA LTD.	Stair Climber STAIR CHAIR SC6	Infrastructure		The Stair Chair SC6, a battery-powered stair climber, assists disabled or elderly individuals in ascending and descending stairs where there are no lifts available, including historical architectures or in an emergency.	
69	C.H.C.SYSTEM CO.,LTD.	CO2 monitor	Infrastructure	R3-018	Using a high-precision optical NDIR* dual beam sensor, Marvel detects and visualizes CO2 concentration, which serves as a rough indicator of ventilation. The Marvel series meets "the Guidelines for selecting carbon dioxide concentration measuring instruments" issued by the Japanese Ministry of Economy, Trade and Industry.	
70	TECH CORPORATION	Ultra Fine Bubble Generator "Fine AQUA"	Infrastructure	R3-007	Fine AQUA is a device that generates very fine bubbles "Ultra Fine Bubbles" in liquid. Ordinary bubbles rise to the surface and are released immediately after generation, but fine bubbles can remain in water for a long time, making it possible to create solutions with high levels of dissolved oxygen. In addition, fine bubbles with a diameter of only one billionth of a meter can penetrate into microscopic gaps, adsorb dirt and odors, and remove them.	

No.	Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
71	TECH CORPORATION	Environmental Hygiene System by Electrolyzed Water "Mamorumuz u"	Infrastructure	R3-008	The disinfecting power of acidic electrolyzed water comes from an ingredient called hypochlorous acid (HClO). Hypochlorous acid has the function of penetrating the cell membrane of bacteria and destroying them. When the negative ions contained in alkaline electrolyzed water adsorb dirt, they exfoliate the dirt, bring it up to the surface, decompose and separate it into small pieces. This is the mechanism behind the high cleaning power without the use of surfactants.	
72	Sibata Scientific Technology Ltd.	Minipump MP-W5P	Infrastructure	R2-074	The Minipump MP-W5P is a portable air sampling pump equipped with functionality for measuring accumulated flowrates and constant flowrates. Small and lightweight design is suitable for an individual working person to fix it to the body. A wide range of applications such as personal exposure measurements and air samplings in working, indoor and atmospheric environments are corresponded. Reliable Japanese product with CE mark.	
73	Sibata Scientific Technology Ltd.
