Tokyo Metropolitan SME Support Center supports the overseas sales promotion of this product.
Tokyo Metropolitan SME Support Center is founded by Tokyo Metropolitan Government to assist SME in Tokyo.

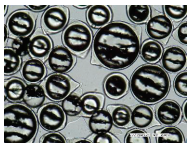

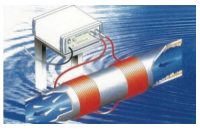

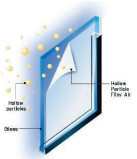

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
VMFi Inc.	NEW Trans Display	Robot Machinery Metal Manufacturing	R8-015	◎Where Voice Meets Value A cutting-edge simultaneous voice translation system powered by advanced AI. Featuring a proprietary translation engine independent of conventional Large Language Models {LLMs), our system is highly acclaimed for utilizing premium linguistic data sourced through partnerships with academic institutions worldwide. The three key advantages of our product are:	
Yamamoto Vinita Co., Ltd.	NEW Radio-Frequency Thawing System	Robot Machinery Metal Manufacturing	R7-048	◎Simple, Fast & High-Quality ✓Improve factory production systems.Defrost exactly what you need, when you need it. ✓Improve yield. No advance defrosting needed, reduce drip loss. ✓Space-saving & labor-saving. Streamline manufacturing with in-line processing, eliminate wasteful tasks. Clean & safe defrosting. ✓No risk of bacterial contamination, no wastewater treatment required.	
Trust Technology Co., Ltd.	NEW AI Inspector AI Image inspection system for Production Lines	Robot Machinery Metal Manufacturing	R7-045	◎No AI Experts Needed / Practical AI for Factory Floors ・Automating All Visual (appearance) Inspection with AI ・100% defect detection, even on complex 3D components （Solution） ✓Automating all manual visual inspection ✓Cut labor costs and staffing with AI-solving labor shortages ✓Dramatically boost inspection quality with AI decision-making ✓User-Driven AI Automation ✓One-time purchase model - No running costs except electricity	
Nihon Denji Sokki Co., Ltd.	Magnetic Application Technology	Robot Machinery Metal Manufacturing	R7-049	◎From the smartphones that are all around us, to the electric cars that will lead the next generation, to the airplanes that fly in the sky. Nippon Denji Sokki's technology supports the safety and evolution of modern society through the invisible "magnetic force." As one of Japan's leading technical groups that can provide a one-stop service from "magnetization to inspection," we continue to take on the challenge of creating new value that has never existed before by combining the craftsmanship we have cultivated over 70 years with the latest analysis technology	
Showa Industry Co., Ltd.	Flexible Coolant Nozzle S-Nozzle	Robot Machinery Metal Manufacturing	R7-050	◎Flexible Bending Secure Locking ・Ultra-Long Life ・Ultra-Reliable （Solution） ✓Reduce Labor ✓Improve Machining Accuracy ✓Longer Tool Life ✓Prevent Nozzle/Piping Damage （Features） ✓Curves Smoothly & Naturally ✓Holds Position Securely ✓Smooth Flow, No Fluid Pooling ✓Customizable for Any Need	
TOWA COMPANY LIMITED	Label Applicator APN Series / APF Series	Robot Machinery Metal Manufacturing	R7-046	◎Fast, Easy & Reliable Labeling / One Model Supports Various Label Shapes ・TOWA's Unique Mechanical Sensor ：Supports various label shapes / Reliable one-by-one dispensing - No missed labels! ・Power-free handheld tool ：Low cost and portable ・Made in Japan ：Premium quality & long service life	
SEIWA OPTICAL CO., LTD.	SWIR-Cam Equipped Semiconductor Inner Observation Microscope	Robot Machinery Metal Manufacturing	R7-044	◎A microscope that utilizes infrared transmission and reflection properties to observe internal structures of semiconductor devices, such as silicon wafers, chips, MEMS, and CSPs. Suitable for observing metal wiring and die bonding inside chips. ・Leave it to SEIWA OPTICAL — from Bench-Top Observation to Fully Automated Equipment. We provide optimal solutions backed by over half a century of manufacturing expertise.	
IZUGIKEN KOGYO CO., LTD	PCB & Circuit Design, Fabrication, and Assembly	Robot Machinery Metal Manufacturing	R7-037	◎Empowering Diverse Industries through PCB & Circuit Solutions ・One-Stop Service: From design & procurement to assembly, testing, delivery ・High-mix, Low-Volume: Flexible production from a single unit ・Cost Advantage: Competitive manufacturing at our Vietnam factory ・Proven Expertise:Advanced production technology since 1976 ・Speed & Agility:Short lead times and rapid response	
ChibaDies Co., Ltd.	Precision Gear Molds by Gear Researchers & Engineers	Robot Machinery Metal Manufacturing	R7-029	◎Your Problems, Solved! （Solution） ・Superior competitiveness through quiet, durable, and ultra-precise plastic gears ・Metal-to-plastic conversion & cost savings with PEEK / PPS Gear Molds ・Accelerate your development: From plastic gear design to tooling, and mass production	
StraPack Corporation	Secondary Packaging System	Robot Machinery Metal Manufacturing	R7-028	◎Delivering “Trust & Reliability”through Packaging Technology ! ・From standalone machines to fully integrated systems, we provide the optimal solutions for your entire production line ✓CartonErector AF-5NS ✓Strapping Machine SQ800 ✓Carton Sealer AS-5S ✓Banding Machine OB-360N	
KIRIYAMA	KIRIYAMA ROHTO Glass Rohto	Robot Machinery Metal Manufacturing	R7-030	◎Heat-Resistant, Fully Transparent, Easy to Observe and Clean ✓Liquids are naturally guided into the central discharge hole, minimizing filtration bypass ✓Simple structure for easy cleaning ✓Heat-resistant glassware suitable for hot filtration	

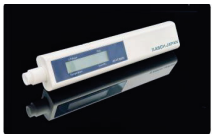

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Horitec Co., Ltd.	Ultrasonic Tool Washer	Robot Machinery Metal Manufacturing	R7-008	◎Molds Restored to Pre-molding Condition! ✓For Various Mold Stains ✓Excellent Cost performance ✓Customization ✓Simple Design & Easier Maintenance ◎Specifications /Ultrasonic Output 600W / Oscillation Frequency 40KHz / Power Consumption 3-phase AC200V 50/60Hz	
TECNISCO,LTD.	"Cross-edge" Technology	Robot Machinery Metal Manufacturing	R7-005	◎Japanese Microfabrication, Powering Next-Gen Technologies! ・Using five leading technology, “Cutting”, "Grinding", "Polishing", " Metalizing", "Bonding", TECNISCO realizes customer requirements with high QCD quality. We provide one-stop support from prototyping to mass production. ・Through the “Cross-edge” Technology, we can provide the advantages below by undertaking several processes as your one-stop solution partner.• Optimized processes • Shorter lead time etc.	
ASPiA JAPAN Co., Ltd.	Water Repellent Oil Absorbent material ECOSAS fiber	Robot Machinery Metal Manufacturing	R6-039	◎Oil pollution control for port, rivers, and lakes! Oil cleanup and spill prevention at factories, or ships! ・ECOSAS fibers soaks up only oil while repelling water, so unlike conventional fibers, it won’t sink once used. The oil remains securely trapped inside for over 24 hours. Thanks to its outstanding performance, ECOSAS has received type approval –a certification granted by the Japanese government for products that meet strict standards of quality, technology, and safety.	
CTK CORPORATION	Cable & Wire Marking Machine HOTMAKER	Robot Machinery Metal Manufacturing	R6-049	◎High productivity with high-speed, continuous printing ！ ・Capable of printing small characters such as serial numbers and lot numbers on small areas of electronic components, wires and cables. ・Ideal for identification of wires / cables used in distribution boards or control panels, wire harnesses, electrical wires, etc. ・Designed to meet the specific needs of customers in diverse industries.	
MINITOR CO.,LTD.	Standard of precision electric grinder Minimo ONE Series Ver.3	Robot Machinery Metal Manufacturing	R7-002	◎A precision electric grinder that meets all the needs of professionals (Power Pack) ・Renewed design pursuing usability and functionality ！ A variety of handpieces tailored to different work patterns are available ! ・Standard Rotary ・Recipron ・Mini Belt Sander	
Aerosense Inc.	Aerobo Wing (AS-VT01K)	Robot Machinery Metal Manufacturing	R6-053	◎VTOL Fixed Wing Drone ・Fixed Wings: Cover long-range & large-area ・Vertical Takeoff / Landing: No need for runway ・Sufficient Payload Capacity ・Fully Automatic Flight ・Made in Japan	
Mechano Transformer Corporation	Piezo Assist Motor	Robot Machinery Metal Manufacturing	R6-050	◎Automatic Positioning at Ultra-precise Nano-Level ✓ Electric and automatic ✓ Resolution is less than 30nm ✓ No misalignment even after power is off ✓ Barely any backlash ✓ Withstands over 1 billion times of use (depends on the condition of use) ✓ Visualized travel amount (separate external sensor required)	
TECDIA CO.,LTD.	bai - Precision Nozzle	Robot Machinery Metal Manufacturing	R6-043	◎Excite the world with precision machining technology 2024 Nozzle Innovation bai - Precision Nozzle Built for What Comes Next -bai 1- Nozzle for Narrow Area I.D. - φ0.1 O.D. - φ0.14 TL - 2 -bai 2- PTFE Precision Nozzle I.D. - φ0.10 O.D. - φ0.20 TL - 1 -bai 3- 40x Deep Hole Precision I.D. - φ0.10 O.D. - φ0.20 TL - 4 ・From prototyping to mass production, we provide products of high quality regardless of quantity.	
AkimotoSanki Co.,LTD.	Cutoff Nozzle	Robot Machinery Metal Manufacturing	R6-036	◎Make difficult liquid filling operation easy! ・Cutoff Nozzle maintains a clean working environment and reduces production costs by decreasing the defective rate.	
NOMURA CORPORATION	Fully Automatic Rice Weighing & Packing Machine SIP-110RⅡ	Robot Machinery Metal Manufacturing	R6-035	◎Next-generation packaging machine: high-speed, energy-saving, and stable performance (Features) ・High stability of tube roll type ・Compact, high-speed and energy-saving ・Equipped with a proprietary high-precision weighing system ・Wide Variety of Options	
ASAHI INDUSTRY CO.,LTD	Tire Pressure Gauge EX	Robot Machinery Metal Manufacturing	R6-031	◎For Tire Safety Around the World ! Maintain proper tire pressure with simple operation. ・Chucks：A wide variety of products for all types of vehicles, from motorcycles, passenger cars to large commercial vehicles. ・3-in-1!：Check pressure / Inflate/ Deflate ・Inflator：for larger vehicles, Inflate multiple tires at once!	

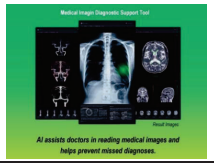

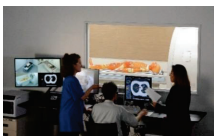

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Luceo Co., Ltd.	Polarizing Plate POLAX Series	Robot Machinery Metal Manufacturing	R6-029	◎Custom-made high-performance polarizers from one piece ! ・In-house Optical Film Manufacturing From one piece to mass production. ✓Integrated production from manufacturing polarizing films ✓Various specifications available. ✓Sold from one piece. We also make prototypes. ✓Environmental regulations satisfied	
MEIJI MACHINE CO., LTD.	AUTOMATIC BAG OPENER	Robot Machinery Metal Manufacturing	R6-028	◎Saving labor, Improving efficiency ! ・For bags containing powdered/ granulated products such as rice, flour, etc. ・Unmanned operation is available when used with a depalletizer. Simple, Safe, & Maintenance-free	
KANTO KONGOKI INDUSTRIAL CO.,LTD.	Multifunctional Mixer Series	Robot Machinery Metal Manufacturing	R6-023	◎Achieving the Best Mixing ! For materials with various characteristics. ✓Great for productions of bread, confectionery, cakes, pizzas, etc. ✓ Improved safety and hygiene ✓ Wide range of peripherals to enhance work efficiency	
ViewOhre Imaging Co., Ltd.	Microscope Thermography ThermalViewX MCR Series	Robot Machinery Metal Manufacturing	R6-003	◎Temperature Measurement Solution for applications where a thermocouple is not suitable ・Unique calibration system measures the temperature of very tiny areas. ・Accompanying exclusive software for visualizing heat distribution using unique signal and picture processing. ・Providing movie functions and statistical methods to help researchers and inspectors. ・User friendly Graphical user interface (GUI)	
Seiken Co., Ltd.	Contact Probes, Probe cards, IC Sockets	Robot Machinery Metal Manufacturing	R6-001	◎Cutting-Edge, Probe and Test Solutions for Semiconductor ・Revolutionizing contact probe tech for your testing needs. ・Our solutions lead the industry for different sectors. Committed to excellence, we thrive on solving your toughest challenges.	
Unipulse Corporation	Electric Balancer Moon Liftert	Robot Machinery Metal Manufacturing	R5-047	◎Handle workpieces as if they were weightless! ・Assists in lifting weight and allows for the manual handling of heavy workpieces weighing up to 480 kg ・Makes hard-heavy workloads easy for anyone ・Also suitable for precision positioning, assembly, and handling of delicate workpieces such as glass	
FingerVision Inc.	Vision-based tactile sensor FingerVision	Robot Machinery Metal Manufacturing	R5-046	◎Hand with eyes to handle various types of products and delicate materials! ・Handle and manipulate soft, slippery, and easily deformable objects that have been difficult to handle with robots. ・Robotic arms with low-cost tactile sensors help reduce the workload on production lines and labor shortages.	
TAISEI GIKEN CO.,LTD.	Oil Purification Units	Robot Machinery Metal Manufacturing	R5-040	◎Taisei Giken is a prominent manufacturer of oil cleansers and oil/water separators. ・Maintain machine oil equal to fresh oil at all times	
Mitsuya Co., Ltd.	Functional Plating Services	Robot Machinery Metal Manufacturing	R5-036	◎From our approximately 100 plating types, we choose the best method for your specifications, resulting in quality stabilization, prevention of product failures, and reduction of unnecessary costs. ・This technology is expected to have applications in the semiconductor industry, aerospace industry, and medical industry.	
Hutzper Inc.	AI Solution Packages	Robot Machinery Metal Manufacturing	R5-026	◎Delivering usable AI demanded by the field through integrated technology ✓Hutzper Vision：Visual inspection ＆Quality Analytics ✓Hutzper Allocation：Workforce Optimization AI ✓Hutzper RAG：Offline LLM, with unique extraction tech ✓Hutper Analytics:Tailor-Made AI for your workflow	
YAMAMOTO-MS Co., Ltd.	Plating Experimental Equipment YAMAMOTO-MS	Electctronics IT	R7-055	◎From Quality Control to Research & Development / Essential Experimental Equipment for Cutting-Edge Technology ・With know-how accumulated since 1950 and a variety of over 1000 products, we offer the sole solution just for you ・By applying our liquid-handling technology developed in plating, we widely support diverse research fields such as medical engineering and aerospace ✓Wafer Plating Equipment ✓Micro Electrolytic Cell ✓Barrel Plating Equipment ✓Hull Cell Test Kit	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
DAIAN SERVICE INC.	Air Deflector with Digital Signage AD WING EVER	Electronics IT	R7-054	◎AIR WING® meets Digital Signage （Solution）✓Real-time updates in multiple languages ✓Branded spaces, instantly updated and globally connected ✓Seamless guidance to your destination ✓Streamlined operations by eliminating manual updates （Features）✓High visibility with high-brightness LED dot displays ✓ Transforming dead ceiling space into active space ✓Global ready: multi-language display via a dedicated app	
AdPower Solutions Inc.	Acoustic Tuning Seals Powered by Static Control Technology AdPower Sonic	Electronics IT	R7-052	◎Back to its True and Original Pure Sound （Solution） ✓Apply it and experience clearer sound ✓Get true sound without investing in costly new gear ✓Reduce static for clear sound imaging （Features） ✓Supervised by Avex's Chief Engineer ✓Performance tested by research institutes	
Nice Company Inc.	NiCSo Room Acoustic Versatile Acoustic Panel Series	Electronics IT	R7-040	◎Exceptional Acoustics through Japanese Heritage Artistry! ・Ultra Light weight, Effortless Installation ・Acoustic Solutions Born from Over 500 Studios Designs across Japan ✓Refine your soundscape by simply mounting on walls or ceilings. ✓A fusion of triaxial weaving technology & advanced acoustic engineering ✓Perfect for studios & audio rooms. Customizable through diverse combinations of sizes and thicknesses	
OUEN Co., Ltd.	Inspection Designer	Electronics IT	R7-047	◎Zero-Training Visual Inspection AI Software for Instant Deployment ・Industry-First, Patented Zero-Training AI ・Pursues high accuracy with 5 proprietary AI models, including ultra-fine good product learning & defect-learning AI ・Intuitive No-Code inspection flow ✓High Accuracy ✓High Versatility ✓Instant Start-Up	
Electrochemistry Systems Co., Ltd.	Automatic Chemical Solution Analyzer /Controller	Electronics IT	R7-031	◎High-precision Control of Chemical Solutions in PCB Production Lines Using Original Technology ◎Quality Stabilization and Running Cost Saving ✓Alkaline Developer Analyzer/Controller ✓H2O2-H2SO4 Etchant Analyzer/Controller ✓Ferric Chloride Etchant Perfect Controller ✓Cupric Chloride Etchant Perfect Controller	
CIMTOPS Corporation	i-Reporter	Electronics IT	R7-019	◎Digitalize handwritten forms! ✓No-code digitalization of on-site forms - familiar, fast, flawless! ✓Zero re-entry, zero mistakes! ✓Focus people on data use, not data re-entry. ✓Easier way to utilize on-site forms!	
NeoBattery Co., Ltd.	NeoFuelCatalyst	Electronics IT	R7-018	◎Smarter energy. Smaller footprint. ・NeoFuelCatalyst is the integrated solution of the data collection, analysis, and liquid catalyst. ・Just dump into fuel tank! No need to stir. ✓Boost Fuel-efficiency! ✓Boost Your Profits! ✓Eco-smart solution ✓Sales Record	
NIPPON KIKAI SHOUJI CO., LTD.	BTW Series	Electronics IT	R7-015	◎Multi-product Filling! Space-efficient Design for One-man Operation ✓Suitable for limited spaces. (Footprint: 9.5m²) ✓Just supply containers for automatic filling and capping. ✓Compatible with multiple products and diverse filling liquids in a single unit. ✓More than just fillers and cappers -- Explore our full lineup!	
DENKA ELECTRON CO., Ltd.	EMI Shielding Sleeve	Electronics IT	R7-014	◎Premium Cable Protection - Problems Solved! Just Wrap Cables. Zero Noise-induced Malfunction! ・Advanced Shielding Design with Special Copper Foil ・Shielding Performance :Delivers ≧1.5x the shielding power of aluminum, with just half the resistance. ✓6:1 Shrink Ratio & Adhesive Lining Shielding Performance / Heat-shrink Tubing ✓Unique! Ultra Heat-resistant / Heat-resistant Cable Tie	
On Demand One,Inc.	Application Migration Service	Electronics IT	R6-027	◎Convert Applications that were developed/built in: ・Oracle Forms ・Power Builder into formats applicable to .NET	
TERADA Co., Ltd.	Floor Plate Series TERACON	Electronics IT	R6-015	◎Floor Electrical Outlet Embedded Socket Cover Box ✓ Power supply anywhere you like, even in open spaces away from walls ✓ Various application - suitable for residences, offices, commercial facilities etc.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
NCK Co., Ltd.	NEW Adcool Aqua	Environment Energy Chemical	R8-005	◎Cooler Buildings, Just by Painting ・Effective Just by Applying ・Maintenance Free ✓Reduce electricity costs by applying a solar-reflective coating to roofs, exterior walls, and other surfaces. ✓Help combat excessive heat with solar-reflective coating technology. ✓Help protect employees and products by reducing indoor temperature rise. ✓Environmentally friendly, water-based coating.	
OGINO SEISAKUSHO CO., LTD.	NEW CMFiber Cassette	Environment Energy Chemical	R8-002	◎Eco Water Treatment Fiber ・Just place CM Fiber in the circulating water. It clears rust, scale, and slime from your cooling towers and pipes, and prevents re-buildup—all without any power source ✓Easy Setup ✓Easy Cleaning ✓Less Maintenance ✓Cost SavedList ✓Lasting Water Quality (With Chemicals)	
HARIO SCIENCE CO., LTD.	LABORATORY GLASSWARE Premium Heat-Resistant “HARIO Glass®”	Environment Energy Chemical	R7-051	◎Loved by Professionals Superior Heat & Chemical Resistant Glassware ・Based on HARIO’s heat-resistant glass technology established in 1921, HARIO Glass® boasts exceptional thermal shock and chemical resistance. While designed to support researchers in rigorous laboratory environments, its distinctive functional beauty is also widely embraced in diverse settings, from everyday homes to curated interiors.	
NARA MACHINERY CO., Ltd.	Super Jiyu Mill (SJM)	Environment Energy Chemical	R7-032	◎Chosen for its Exceptional Cleanability! ◎Sanitary Design that Defines the Quality of Every Product ・HACCP-Compliant Impact Pulverizer ・Easy for Anyone to Disassemble & Clean All Powder-Contact Parts	
TOYO YOZAI Co., Ltd.	T-66 Oxide Scale Remover For Copper, Copper Alloy	Environment Energy Chemical	R7-006	◎Make Copper & Brass Shine! Oxide Scale Remover! ・By dipping and applying, T-66 demonstrates superior penetration into metal surfaces, effectively removing oxide scales formed due to overheating or deterioration, thus reducing the washing time.	
FUSOGOSEI CO., LTD.	Ponleum Pro Remodel Floor Style Floor Home Furnishing	Environment Energy Chemical	R7-011	◎Greater Comfort at Home We offer interior materials that beautifully decorate your home-those designed for your great comfort at home, providing relaxation, a feeling of being yourself, and a sense of cleanliness, as well as reliable functions of stain resistance, antibacterial effect, and high durability.	
NIHON MTECS Ltd.	NURU DENIM Sustainable Interior Materials	Environment Energy Chemical	R7-010	・We are a pioneering interior materials brand that transforms discarded eggshells and other industrial waste into beautiful, functional creations-interior paint, wallpaper, plaster, tiles, and more. Through such upcycled products, shaped by our unique ideas and ingenuity, we devote ourselves to helping resolve the social challenges our customers face, contributing to the creation of a more sustainable, circular society and spreading the new value of upcycling.	
System Brain Corporation	“Nano-Maintenance” commercial cleaner	Environment Energy Chemical	R7-024	◎“Nano Maintenance” solves your problems on “mold & dirt” instantly and effortlessly! ・Specialized for “mold & dirt” that won’t come off! “Nano-Maintenance”, commercial cleaner chosen by professionals	
NICHIBOU Co., Ltd.	ERASE TUBE Device NOAH5112 (FK-5-1-12)	Environment Energy Chemical	R7-023	◎ERASE TUBE DEVICE is a stand alone device, flexible and easy to install and now it can be used for enclosure up to 0.8M³ of space. ◎NOAH®5112 FIRE PROTECTION FLUID is a Next-Generation Halon Alternative offering outstanding performance, a large margin of safety, and an excellent environmental profile.	
Yamaguchi Heavy Industries Co., Ltd.	Green Carbon Steel	Environment Energy Chemical	R7-020	◎Green Carbon Steel is a collective name applied by American Katerra, LLC, referring to steel materials and their product families that have significantly reduced CO2 emissions throughout the entire supply chain. The goal is to decarbonize the whole supply chain. ✓Cost Estimation Services ✓(GHG)Green House Gas (GHG) ✓Supply Chain Management with LCA	
ICHINENCHEMICALS CO., LTD.	Industrial Chemical Products	Environment Energy Chemical	R7-021	◎Contributing to a better global environment & an improved quality of life for all ✓Lubricant：Oil, Grease, Silicone, etc. ✓Rust-remover & Anti-rust Agent：For Steel, Machinery ✓Parts Cleaner：Parts Cleaner	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
PUMP MAN Co., Ltd.	Water-Permeable Retention & Infiltration Concrete Dotcon	Environment Energy Chemical	R6-052	◎Toward a Flood-Free Future From Drainage to Infiltration ✓Allowing rainfall to infiltrate on the spot ✓Shorter construction period and smarter cost saving ✓Green town-building with Dotcon, and flexible tile design with Dotcon ✓Prevents clogging and ensures the long-lasting permeability by easy maintenance ✓Drainage slope is unnecessary – Level construction is feasible	
NOATECH Co. Ltd.	SUPER NAMITT Inorganic Flocculant	Environment Energy Chemical	R7-013	◎SUPER NAMITT is Inorganic Flocculant which removes hazardous substances from waste water, including heavy metal, semi-metal, oil, etc. It can be effective for various types of waste water, and is even contributing to people in disaster-hit areas and developing countries by helping secure the safe e water for domestic use. ◎From Hazardous Waste Water to Recycled Water! Easy & Speedy Clean Water in Smaller Equipment!	
ENIMAS Co., Ltd.	Portable Communication Ammeter ENIMAS	Environment Energy Chemical	R7-012	◎Save Energy Globally by Visualizing Power Use! ✓Power Use Visualized & Monitored! ✓Power Saving Effect Visible! ✓CO2 Emission Amounts Also Visualized!	
IBS INC.	Diaphragm Pump	Environment Energy Chemical	R6-054	◎Combine your future,Create new value ・Diaphragm pumps are membrane-type, positive displacement pumps that use rubber or fluororesin for its diaphragm. ・The compact and lightweight design makes it easy to integrate into equipment, and the gas (liquid) contact parts are made of fluororesin or stainless steel depending on specifications, allowing for corrosion resistance required. ・Vibration reduction, high temperature, and explosion-proof specifications are widely accommodated.	
MORIKAWA CO.,LTD.	Volatile Organic Compound Gas Recovery Device: REARTH	Environment Energy Chemical	R6-042	◎REARTH helps recycle organic solvents to protect the environment and reduce costs.	
Japan Capsular Products, Inc.	Micro-encapsulation Technology	Environment Energy Chemical	R6-038	◎We manufacture and process microcapsules with a diameter of 5 - 2,000 ㎛ using our proprietary technology for coating microscopic particles. ・Depending on the characteristics of the materials enclosed, they can be applied to a wide variety of products.	
Nakagawa Chemical Inc.	Self-adhesive Decorative Film	Environment Energy Chemical	R6-037	◎Superior Space Design : Connecting and Creating Value Together Nakagawa Chemical has been developing and selling self-adhesive decorative films in Japan for half a century. ・Our extensive experience and diverse product lineup are highly regarded by professionals in the architecture and design industry.	
Heisen Yoko Co.,Ltd.	Two-component polyurethane casting resins: Hei-Cast Series	Environment Energy Chemical	R6-034	◎We offer polyurethane resins for custom-made production. ・Focusing primarily on the prototype industry where vacuum casting is widely incorporated, we develop a variety of products that take advantage of polyurethane's unique characteristics.	
PNEUMATIC CO.,LTD	Prevents Scaling in Pipes	Environment Energy Chemical	R6-033	◎Innovative,Environmentaly-frindly Equipment that Prevents Scaling in Pipes ・No maintenance is required after installation ・Safe and secure, as no chemicals are used Maintain the thermal efficiency of cooling towers, heat exchangers etc. ・Keep the inner surfaces of pipes distributing liquids clean and free from scale	
UNITEX Corporation	Data Storage Solution - UNITEX LT Series	Environment Energy Chemical	R6-032	◎LTO tapes offer offline storage for large volumes of data for over 30 years, free from concerns about cyber attacks & power consumption. ・UNITEX's USB-connected drives and archive software combine with these robust media to provide a simple, seamless solution compatible with various PCs and servers.	
J Topline Inc.	Hollow particle film: Air	Environment Energy Chemical	R6-030	◎By simply applying to a window, “Air” will keep the room cool in summer and warm in winter, creating an energy-efficient, cozy living space.	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
Aster Co., Ltd.	Coating material	Environment Energy Chemical	R6-020	◎Earthquake Retrofitting JUST by COAT I NG ! For strengthening structures! Bricks, blocks, stonese Also good for maintenance of existing buildings! ✓ Prevent concrete from cracking ✓ Prevent tiles and concrete from falling off ✓ Prevent leaks- excellent waterproofing!	
RICOS Co. Ltd.	AI Fluid Simulation Calculation	Environment Energy Chemical	R6-014	◎AI for faster + more accurate Fluid Simulation Calculation ! Also good for maintenance of existing buildings! ✓ Faster Calculation: 100 times faster than with existing simulation software alone*1 ✓ Improved Product Performance: due to the increased number of design patterns that are evaluable by our proprietary AI*2. *1 Results may vary depending on conditions *2 Patented in Japan and China	
TBM Co., Ltd	LIMEX Pellet LIMEX Sheet	Environment Energy Chemical	R5-045	◎Low Impact Material for Earth LIMEX is an innovative new material mainly made of limestone, which can replace plastic and paper. ・LIMEX can reduce GHG emissions and plastic consumptions compared with conventional plastic, and LIMEX can reduce the use of water compared with conventional paper. ・LIMEX is applied by more than 10,000 organizations, and it was introduced at Global Conference such as COP/G20/G7.	
Rhino Japan, inc	Next-Generation Polyurea Wall	Environment Energy Chemical	R4-020	◎RHINO POLYUREA SHIELD WALL is an architectural panel for exterior walls made of styrene foam with polyurea resin coating. ・The polyurea resin offers hardness and elongation, high tensile strength, and excellent tear and abrasion resistance. ・In addition, this lightweight relieves concerns about crushing incidents caused by fallen old concrete-block walls.	
TOYO AUTOMATION Co., Ltd.	Emergency shutoff system for water tanks	Environment Energy Chemical	R4-008	◎This system immediately closes the shutoff valve when its seismic sensor detects earthquake motion. ・In the event of an earthquake, water tank will maintain a specific volume of water on hand. ・However, it may experience unexpectedly flowing water as a result of pipe damages. ・Installing the system prevents the water flow.	
carewill, INC.	Arm Sling Wear & Items for Wheelchair Users carewill	Medical	R8-005	◎Care You'd Want to Wear ・Not something to endure, but something to choose—care designed with the dignity, comfort, and pride you'd ask of any garment you love. Made together with the people who wear it ✓Arm Sling Wear ✓Standard Arm Sling ✓Raincoat for Wheelchair Users ✓Freestanding Washable Laundry Bag	
METS INC.	High-Speed, Wide-Area 2D Code Scanner EX-Reader	Medical	R7-043	◎For Reliable Traceability of Surgical Instruments ! ・Wide-View Scanning Camera ✓High speed scanning of micro 2D codes down to 2mm ✓Wide range scanning saves aiming time ✓Downward camera prevents glare and resists contamination ・High Usability ✓Easily adjustable to optimal positions based on instrument sizes	
Japan Polymer Technology Corporation	Endoscopic Suturing Training Devices MedBalance	Medical	R7-036	◎The Training Lab that Fits in Your Bag ・Trending Products for Japanese Doctors (Not for Medical Use) ✓The Ultimate Portable Dry Box ✓A Two-in-One Solution for Hand-shaking Control & Regular Training ✓It helps to clarify your training goals	
ASCH JAPAN Co.,LTD	VAPO SCAN	Medical	R7-034	◎For Evaluating TEWL, Skin Barrier ◎Function, and 3-Dimension-Skin Model ✓Almost unaffected by airflow thanks to the closed-type chamber ✓The measurement completes within 14 seconds, with the optimal measurement time automatically determined by the high-performance CPU ✓With various optional adapters, mesurements can be performed on 3D skin models, nails, small animals, and a wide range of other samples	
Kyowa Hearts Co., Ltd.	Ultra-Thin / Fine / Small Precision Metal Stamping	Medical	R7-033	◎Ultra-Precision Tooling & Stamping:One Stop System ✓Ultra-Compact & Lightweight Designs for Next-Generation Needs Powered by Super-Precision Stamping ※Official supplier for "HINOTORI", surgical robotic system (Japan) ✓Lot Size: From 1 unit (prototyping) to 1,000,000 units/month (mass production)	
TAIYO Corporation	OPERAⅢ Cx Wearable OR lighting System	Medical	R7-025	✓Brightness: ~160,000 Lux ✓Flicker-free, eye-friendly design ✓Surgeon-centric ergonomics ✓Versatile for OR, ICU, disaster/emergency ✓Multi-LED with shadow reduction ✓Adjustable spot: 6-20 cm	

Manufacturer	Product Name	Classification	No.	Product Information	Product Photo
CareFort, Inc.	Care Fort Hermetic Seal System for used Diapers	Medical	R7-027	◎Effective Waste Sealing for Nursing & Care Settings ✓Infection Risk Reduction: Hygiene management enhanced ✓Odor Leakage Prevention: A clean and comfortable environment created ✓Simple & Quick Operation: Staff workload reduced: ✓Enhanced waste management: Users and families more reassured	
POSH WELLNESS LABORATORY Inc.	WELLNEE SLEEP	Medical	R7-016	◎Innovative Wearable Device to “Monitor & Visualize”Your Sleep & Breathing ・With an ultra-thin main unit and a single belt wrapped around your pajamas, you can sleep as usual while the device automatically visualizes subtle aspects of your sleep—such as breathing, body movements, and sleep depth—and assesses potential health risks.	
Any-Edge Inc.	S-KIT Novel AI-based Breath Analyzer for Oral Healthcare	Medical	R7-009	◎“Smart breath, Smarter prevention!” ・S-KIT is a novel, non-invasive medical micro-device that analyzes both breath (VSCs) and saliva in real time to assess oral health risks such as periodontal disease. ・Its compact, portable design and IoT connectivity make it ideal for home monitoring, preventive care, and remote oral health management. S-KIT is also applicable to animals, including pets.	
Ory Lab Inc.	OriHime	Medical	R7-003	◎Bunshin robot (Bunshin is a Japanese word for avatar) ・The avatar robot OriHime, is a communication tool that was created to help realize the conventional social aspects of life and work. ・More notably to solve the "ristrictions posed on movement" caused by hospitalization, physical disability, etc. ・OriHime is equipped with a camera, microphone and a speaker, you can communicate as if "you were right there".	
LIFESCAPES Inc.	LIFESCAPES Medical MI（Finger Type）	Medical	R6-040	◎Advanced technology accelerating neurorehabilitation ！ ・A next-generation neurorehabilitation device for patients with hand and finger paralysis—from mild/moderate to severe. ・Usable anytime, anywhere, including in hospitals and other clinical settings. ✓Hybrid Feedback from the Powered Orthosis and Electrical Stimulation✓ Control Computer Displays Results in Real-Time ✓Plug-and-Play with Advanced Biosignal Sensing Technology	
LPIXEL Inc.	Medical Imaging Diagnostic Support Tool EIRL	Medical	R6-025	◎Assurance & Innovation in Healthcare through AI ・AI assists doctors in reading medical images and helps prevent missed diagnoses. ✓Integration with existing imaging systems possible ✓Short analysis time without interrupting the clinician's workflow ✓Automated measurement and detection of lesion candidates in the chest and brain ✓Decision-making support backed by vast amounts of high-quality data learned by AI	
INTEC Co., Ltd.
