Support for fostering global organizations and human resources

Small and medium-sized enterprises can receive comprehensive support through seminars, courses, and expert advice to establish global organizations.

Support for creating new business through collaboration with ASEAN companies

To ensure new business opportunities for SMEs, the Center supports Tokyo residential SMEs to match them with ASEAN companies, and vice versa toward the foreign-affiliated companies outside Japan, organizes seminars on how to enter Tokyo market and assists in settling down in the market.

Entry into Global Markets

► Planning Global Business

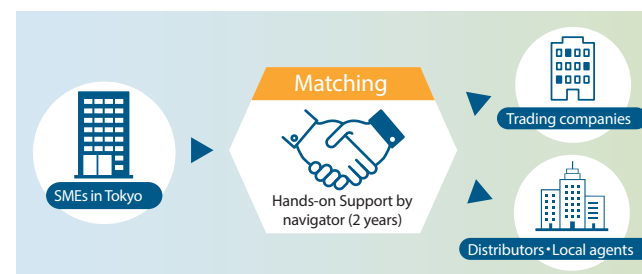

This support is to make your business planning practically from the view points of what, where and how by SWOT analysis with your products/ services.

► Sales Channels Development

Set up opportunities "business matching" for applicable products by face-to-face or online with distributors in local areas or through channels via trading companies in Japan.

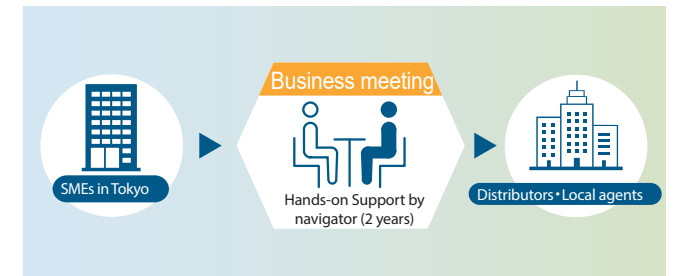

※ Applications are subject to assessment by Tokyo SME Support Center

► Export Expansion through Indirect Trade

To ensure you to promote export business toward overseas, you can expect to have matching opportunities mainly by the Japanese trading firms through their partnerships, being familiar with local market requirements and export procedures.

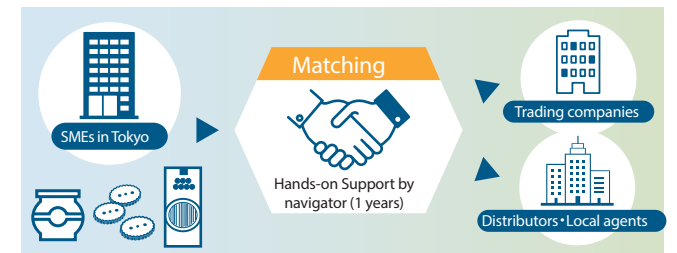

※ Applications are subject to assessment by Tokyo SME Support Center

► Processed Food Sales Channels Development Program

Given the anticipated growth in the global food market, the Program provides support for the processed food products bearing the Certification Mark issued by Tokyo, aiming at fostering the development of overseas sales channels through counterpart matching for the food industry in Tokyo.

※ Applications are subject to assessment by Tokyo SME Support Center

Delivery through e-commerce channels to customers abroad

► Cross-Border E-Commerce (CBEC) Promotion

Consumer products promotion help, such as listing in cross-border EC malls and SNS follow-up.

※ Applications are subject to assessment by Tokyo SME Support Center

Manufacturing outsourcing and technical alliance

► Alliance

Matching with overseas companies that have high technology and local network, outsourcing production and technical tie-up of alliance.

※ Applications are subject to assessment by Tokyo SME Support Center

To enhance and expand business by establishing it locally

► Setting Up Local Facilities

Comprehensive support from your strategic planning and its local assessments to setting up base-ment locally, including seminars & workshops in advance how to establish manufacturing plant, sales branches and representative liaison offices in overseas.

※ Applications are subject to assessment by Tokyo SME Support Center

To strengthen and expand business in Germany and USA

► Inter-regional Economic Exchange Program

Based on the memorandum between Tokyo Metropolitan Government and NRW state, Germany/Texas, USA with regard to support for the small and medium-sized enterprises, through local network in these countries, Tokyo SME can reach our hands toward various areas such as sales channel development, business and technical alliance, research & development, local office placement etc., to bring into business expansion and strengthening in Germany and USA.

※ Applications are subject to assessment by Tokyo SME Support Center
